# 3. Eastern Ontario Wardens' Caucus (EOWC) Treasurers Meeting

As Chair of the Eastern Ontario Wardens' Caucus Treasurers Group, Mr. Foss held an in-person meeting on Friday, June 2, 2022 at the Hastings County Office in Belleville. Discussion items amongst the Treasurers included COVID funding costs, revenues and reporting requirements; delay of assessment by Municipal Property Assessment Corporation (MPAC); Long Term Financial Plans and the impact of increasing tender prices; Asset Management Plan – O.Reg 588/17 July 1<sup>st</sup> deadline; WSIB – Schedule 2 Employers mitigation strategies; Insurance Renewal premium increases; Municipal Election – Lame Duck; IT Roadmap/Strategy; Non-Union

# 4. Provincial Offences Administration Backlog [Strategic Plan Goal #3]

The following chart highlights the ongoing backlog of court matters due to the COVID-19 shutdown:

Month 2022	# of Courts Originally Scheduled	# of Courts Cancelled	# Part I Charges in Backlog	Part III New Charges	# Part III Charges in Backlog	Total Backlog Charges	Number of Court Days Required for Backlog	Months to Clear Backlog at Current Rate
January	6	2	494	124	279	897	37	12.5
Feb	5	3	460	62	422	944	39	13
March	7	3	454	59	430	943	39	13
April	5	2	451	112	304	867	36	12
May	6	2	384	125	925	1434*	60	20

<sup>\*</sup>The increase in the Part III backlog number, represents the total number of backlog of files both within the month of May, as well as matters scheduled to future court days. Prior to May 2022, the backlog of Part III's only included matters listed in court each month that were not completed. Going forward, the report will now include the total number of Part III's that are actively before the court.

# 5. Health Unit Funding Newspaper Article [Strategic Plan Goal #2]

Attached as Appendix I is a newspaper article dated May 5, 2022 entitled "Municipalities, Health Unit Concerned about Rising Costs". Our Committee noted that the County of Renfrew has requested a delegation at the upcoming Association of Municipalities of Ontario (AMO) Annual Conference in August to continue to advocate for Public Health funding support from the Province.

# 6. County of Renfrew – WSIB Actuarial Report [Strategic Plan Goal #2]

At the April 2022 Finance and Administration Committee meeting, Committee discussed the financial impact of the WSIB Actuarial Review, noting the increase in liabilities for Paramedic staff from \$4.1 million at December 31, 2018 to \$8.8 million at December 31, 2021. The Treasurer advised that under the Public Sector Accounting Board recommendations

for local government, an actuarial review occurs every three years. The review in 2018 recommended an increase in the payroll burden factor to 9% for Paramedic employees for 2019, 2020 and 2021 to ensure there was sufficient funds in our account to pay for all future WSIB claims expenses. Unfortunately, the number of staff receiving benefits during this period rose by 75% and as a result, actual WSIB expenses exceeded our provision.

Committee recommended that staff complete an actuarial review annually. The Treasurer then advised that he would need to consult with our external auditors to confirm if they would be required to rely on this updated information to express an opinion on our Audited Financial statements, or if the County could simply use the annual review as a management tool to ensure that budget provisions are better aligned annually. The Treasurer has now confirmed that our external auditors will rely on the most recent WSIB actuarial liability estimate to express an opinion on our 2022 financial statements.

Given that our engagement with the actuary will have a direct result on our 2022 financial position, either positive or negative, staff want to advise this Committee that, as of April 30, 2022, our payments to WSIB for claims expenses for the Paramedic employee group have increased by 24% or \$75,000 over the same period in 2021. There are still 14 in force lost time WSIB claims in 2022, the same number of claims present in 2021 when the actuary reviewed our claims status. In addition, the actuarial target for WSIB liability provision at December 31, 2022 should be \$9,249,316 which represents a \$404,487 increase in this liability provision over the December 31, 2021 valuation. If our monthly actual WSIB claims expenses remain as high as they are currently, our 9% payroll burden factor will not allow us to meet this new WSIB target of \$9,249,316.

Staff will continue to monitor the number of cases managed in 2022 and our monthly expenses and bring this information back in the Fall, prior to engaging with the actuary for another review.

## 7. Inaugural Meeting of County Council

The County of Renfrew Procedural By-law states that "The Inaugural Council meeting will be held annually not later than the third Tuesday in December at 10:00 a.m. or at such other time as Council may determine by resolution."

Following the Municipal election on October 24, the new Council will take office on November 15, 2022 and lower-tier municipalities will need to swear in their council prior to our Inaugural meeting. Also, in a municipal election year, nominations for the office of the Warden must be filed with the Clerk 14 days prior to the Inaugural session.

Attached as Appendix II is an email from Mr. Tony Fleming, Legal Counsel, Cunningham Swan, Carty, Little & Bonham advising the County that delaying the swearing in process would create a conflict and risk having a gap in governance.

Section 230 of the *Municipal Act* allows a municipality to hold the inaugural meeting of Council any time within the first 31 days after its term commences. This year, that term commences on November 15 so a lower tier municipality has until December 16 to hold its first meeting. Because the upper tier municipality cannot be organized until all lower tier members have been sworn in, this could lead to a timing issue for the County. The County also must hold its first meeting on or before the 16<sup>th</sup> of December, so having lower tiers delay their inaugural meetings may risk the County not being able to meet its obligation under section 230 of the *Municipal Act*. Mr. Fleming recommends that the lower tiers have their inaugural meetings as soon after the election as possible to ensure that all levels of government can comply with section 230.

The attached email from Mr. Tony Fleming will be provided to all local municipalities. Once the date for the inaugural meeting is determined, staff will provide council with a recommendation on a revised nomination period for the office of the Warden.

#### **RESOLUTIONS**

# 8. **2022 Calendar of Committee and Council Meetings**

#### **RESOLUTION NO. FA-CC-22-06-60**

Moved by Chair

Seconded by Committee

THAT County Council approve the revised 2022 schedule of Committee and Council meetings for the month of October.

# **Background**

Attached as Appendix III is a revised Calendar of Committee and County Council meetings recommending a change in the dates for the months of September and October (highlighted in yellow).

Our Committee is recommending that the meeting dates for October be changed so that our outgoing Councillors can be recognized following the municipal election on October 24.

When the calendar was developed in December 2021, the dates for the Ontario East Municipal Conference had not been set, and this conference is usually well attended by both elected and staff. Staff are also recommending that the meeting dates for the standing committees in September be amended as follows to allow for attendance at the conference:

- 9:30 a.m., Monday, September 12 Operations Committee
- 1:00 p.m., Monday, September 12 Development and Property Committee
- 9:30 a.m., Tuesday, September 13 Health Committee
- 1:00 p.m., Tuesday, September 13 Community Services Committee
- 9:30 a.m., Monday, September 19 Finance and Administration Committee.

## 9. **Hybrid Meetings**

#### **RESOLUTION NO. FA-CC-22-06-61**

Moved by Chair Seconded by Committee

THAT County Council approve that Section 6.1 a) of the Procedural By-law be suspended to the end of this term of Council allowing hybrid meetings for participation in Standing Committees, Sub-Committees of Council and Ad-Hoc Committee meetings; AND FURTHER THAT the provisions of Section 6.1 continue to apply for meetings of County Council.

## **Background**

It is extremely important for Councillors to inform the Clerk and/or Deputy Clerk should they wish to participate in electronic meetings or they are unable to attend a meeting. There are times when there are not enough members present for quorum and it helps if staff are aware of absences in advance.

At the May 25, 2022 meeting, Council directed staff to prepare a report for the June meeting of County Council outlining the impacts of a hybrid model for participation in Standing Committees, Sub-Committees of Council and Ad-Hoc Committee meetings, for the remainder of this term of Council. The report was also to include proposed revisions to the Procedural by-law permitting hybrid attendance at Standing Committees, Sub-Committees of Council and Ad-Hoc Committee meetings.

In discussion with legal counsel, the County has been advised that it is not necessary to update our current Procedural By-law as this is a temporary change to the end of this term of Council.

A calculation on the cost of mileage for standing committee meetings is approximately \$18,483 per year. Some members of council sit on committees that are held on the same day. Our furthest Councillor travels 242 kilometres to the County Administration building and return for meetings. A review of the length of meetings from January to May of this year indicate that some meetings were as short as 45 minutes and some meetings as long as 3.5 hours. As an example, the May meeting of the Operations Committee was 45 minutes with 3 members waiting until 1:00 p.m. to start their next meeting which is lost time and productivity for our elected. Special meetings of Standing Committee prior to County

Council could also be held electronically and do not have to be held on the morning of County Council.

The cost of a typical lunch is approximately \$18.00 with a monthly cost of \$720.

Costs to use an application such as Zoom for electronic meetings will always be required as staff meetings held electronically will likely continue on an ongoing basis, such applications are also required for our livestream, and there will be a need for some Councillors to participate in meetings remotely via electronic video conferencing means for the reasons set out in the procedural by-law adopted in May 2021 noted below:

- i. the County of Renfrew is in a declared emergency as defined by the Emergency Management and Civil Protection Act, R.S.O. 1990;
- ii. the County of Renfrew has a significant weather event (across the entire County of Renfrew or within its local municipalities) has been declared;
- iii. a member is ill or injured;
- iv. a member has been duly appointed to an external advisory role such as AMO, ROMA, FCM or EORN, etc.

Councillors have expressed the benefits of the need for collaboration amongst Councillors, and attending electronic meetings does not allow for that communication. Members being physically in attendance at meetings can reduce or eliminate distractions allowing members to be more present in the meeting.

# 10. Delegation of Authority – Appointment/Contract Awards [Strategic Plan Goal #2]

#### **RESOLUTION NO. FA-CC-22-06-63**

Moved by Chair

Seconded by Committee

THAT County Council approve that the Chief Administrative Officer be given delegated authority for the month of July to approve consultant appointments and contract awards that would normally require Committee and/or Council approval. This approval is contingent on the appointments/contract awards being within approved funding allocations and that there are no irregularities associated with the procurement process.

### Background

In past years, County Council has approved delegated authority to the Chief Administrative Officer to award contracts, consulting appointments, etc. for the month of July where there are no regularly scheduled Committee and Council meetings. This delegated authority has proven beneficial in terms of ensuring that there are no significant time delays incurred in enabling critical project work to proceed.

The delegated authority is given on the understanding that consultant appointments and contract awards are within approved funding authority and are not subject to any irregularities. Departments will make every effort possible to direct required consultant appointments and contract awards to regularly scheduled meetings; however, where this is not possible, staff will utilize the delegated authority process if approved.

# 11. Growth Related Project [Strategic Plan Goal #3]

#### **RESOLUTION NO. FA-CC-22-06-65**

Moved by Chair Seconded by Committee

THAT County Council approve that Watson & Associates Economists Ltd. be engaged to provide a Development Charges Background Study for the County of Renfrew at an approximate cost of \$40,000; FURTHER THAT this includes the additional optional meetings to review the Development Charges process with County Council, local municipalities, and the development community; AND FURTHER THAT the Development Charges Background Study also include the additional cost of \$10,000 to complete an analysis to include development charges for eligible services (i.e. ambulance, municipal housing and long-term care services).

# **Background**

A Special Session of County Council was held on April 20, 2022 for Watson & Associates, Economists Ltd. to provide County Council with an overview of the basics of Development Charges. At this session of County Council, the following resolution was adopted:

"THAT County Council direct staff to continue to investigate opportunities associated with Development Charges and cost recovery alternatives to address growth issues in the County of Renfrew including an outline of

the process moving forward; AND FURTHER THAT this information be provided through the Finance and Administration Committee."

Our Committee overviewed the proposal letter from Watson & Associates to undertake a Development Charges Background Study for the County of Renfrew. This proposal letter is attached as Appendix IV, as well as a summary of the best estimates of the length of time required to move from the acceptance of a proposal, through each phase of the project, ending in the implementation process (i.e. public meetings and by-law passage). This timeline indicates that it will take roughly 10 months from the time we engage Watson & Associates to have a by-law drafted for consideration.

## 12. 2021 Auditors' Report [Strategic Plan Goal #3]

#### **RESOLUTION NO. FA-CC-22-06-66**

Moved by Chair Seconded by Committee

THAT County Council approve the 2021 Financial Report for the Corporation of the County of Renfrew for the year ended December 31, 2021.

# **Background**

Once again for 2021, there were no audit adjustments to the unaudited financial statements for the year ended December 31, 2021 as provided to the Standing Committee's and to County Council earlier this year.

Attached as Appendix V is the 2021 Financial Report. A copy of the 2021 Financial Report will be posted on the County of Renfrew website after our June session of County Council.

In accordance with the rules and regulations of the Institute of Chartered Professional Accountants of Canada, the Auditors' Report must be approved by the governing body for the Corporation.

Ms. Karen Black, CPA, CA, Partner, Scott Rosien Black and Locke has provided us with the following:

a) Attached as Appendix VI is a letter addressed to Ms. Jennifer Murphy, Chair of the Finance and Administration Committee confirming their independence with respect to the relationship between the County of Renfrew and their firm in order for them to express an objective opinion on the financial statements of the Corporation of the County of Renfrew. They have advised that the total fees charged to the County of Renfrew for audit services were \$55,033 and \$1,699 for other services during the period from January 1, 2021 to December 31, 2021.

- b) Attached as Appendix VII is a letter addressed to the County of Renfrew from Ms. Karen Black, CPA, CA, Partner, Scott Rosien Black and Locke advising that as part of the audit process they are to bring to our attention any matters encountered and to offer comments and recommendations. Accordingly, as a result of their audit examination and after reviewing and testing the Corporation's financial systems and related internal control they have no specific recommendations that need to be considered by Council at this time.
- c) Attached as Appendix VIII is a letter addressed to Councillor Jennifer Murphy, Finance & Administration Committee from Ms. Karen Black, CPA, CA, Partner, Scott Rosien Black and Locke providing their audit findings for the Corporation of the County of Renfrew.

Ms. Karen Black, Partner, Scott Rosien Black & Locke, Chartered Accountants has advised the County of Renfrew that their firm will not be in a position to renew their agreement to provide auditing services for the County of Renfrew beyond the 2021 fiscal year. Staff have been very pleased with the auditing services provided by Scott Rosien Black & Locke, Chartered Accountants and we have been very fortunate to enjoy a long-standing relationship with their office dating back more than 40 years. Finance staff will now begin the process of developing a Request for Proposal (RFP) for auditing services for the 2022 fiscal period and beyond.

#### **BY-LAWS**

# 13. Section 275 of the Municipal Act – Lame Duck Period

#### **RESOLUTION NO. FA-CC-22-06-62**

Moved by Chair

Seconded by Committee

THAT County Council pass a by-law to delegate to the Chief Administrative Officer, in the event of a "lame duck" period, the powers to appoint or remove from office any officer of the municipality; to hire or dismiss any employee of the municipality; to dispose of any real or personal property of the municipality which has a value exceeding \$50,000 at the time of disposal and to make any expenditure or incur any other liability which exceeds \$50,000 for the period from August 19, 2022 to November 15, 2022 or until the new Council is sworn in.

# **Background**

Section 275 of the Municipal Act, 2001, (commonly referred to as the Lame Duck Council Section) restricts the actions of municipal councils, if it is determined that the new council will include less than three-quarters of the members of the outgoing council.

After nomination day but before voting day, the determination shall be based on the nominations to the new council that have been certified and any acclamations. After voting day, the determination shall be based on the declaration of the results of the election.

The restrictions of the Act are as follows (275(3)):

- (a) The appointment or removal from office of any officer of the municipality;
- (b) The hiring or dismissal of any employee of the municipality;
- (c) The disposition of any real or personal property of the municipality, which has a value exceeding \$50,000 at the time of disposal; and
- (d) Making any expenditure or incurring any other liability which exceeds \$50,000.

Clauses 3(c) and (d) do not apply if the matter was included in the most recent budget approved by council before nomination day. Section 275(6) indicates that nothing in Section 275 prevents any person or body

exercising any authority of a municipality that is delegated to the person or body prior to nomination day for the election of the new council.

The Ministry of Municipal Affairs and Housing is cautioning municipalities to consider the delegated authority to staff during this "lame duck" period to enable decisions falling under the restrictions.

A by-law was passed by County Council in 2018 with similar provisions as outlined in the recommendation above.

# 14. Employment By-law #1 [Strategic Plan Goal #3]

# THE INTELLIGENCER

## Municipalities, Health Unit Concerned by Rising Costs

Author of the article: <u>Luke Hendry</u> Publishing date: May 05, 2022

Hastings and Prince Edward Public Health's corporate services director and associate CEO, Valerie Dunham, briefs the board about the impact of the increased municipal share in health unit funding Wednesday in Belleville. Rising costs could cause municipalities to raise taxes and also cause reductions in public health services, she said.

Municipalities are about to start paying significantly more for public health services, possibly leading to tax hikes and service reductions, local health unit officials say.

Prior to 2019, Ontario municipalities had a 25 per cent share in the funding of health units. The provincial health ministry covered the remaining 75 per cent and also paid all costs for certain other programs.

But in that year, the Progressive Conservative government increased the municipal share to 30 per cent for all programs, withdrawing its full funding of those other programs.

Some health units, based on past spending, have since received mitigation funding. That has meant \$1.12 million for the Belleville-based health unit in each of the last three years.

That is scheduled to end Dec. 31.

"It's a big hit," said Valerie Dunham, the corporate services director and associate chief executive officer of Hastings Prince Edward Public Health. She estimated the average cost increase to be 22 per cent.

In a telephone interview Thursday, she said the Belleville-based unit "could have handled" the cost-sharing increase of five per cent of past cost-shared programs.

"I'm not saying it's easy, but would have been much more manageable."

Having to pay for 30 per cent of all costs is far more difficult.

Ontario had previously covered the full cost of 11 other local programs ranging in cost from \$25,000 to \$550,000, Dunham said.

The dental program for low-income people, Healthy Smiles Ontario, costs \$550,000 a year, the Smoke-Free Ontario program \$418,000.

"That is a lot of money to absorb," Dunham said.

In total, it's expected area municipalities to pay an additional \$752,93 starting Jan. 1.

Including building-related expenses, Belleville's share is to increase by 24 per cent, or \$245,478 – a total cost of almost \$1.4 million.

Quinte West faces an increase of 22 per cent. Hastings County is comprised of 14 municipalities and does not include the two cities; it will pay a further 20 per cent. The increase for Prince Edward County is to be 19 per cent.

"This is not looking at a balanced budget. This is simply looking at the lost mitigation funding," Dunham said.

She said she has spoken with the treasurers of the four municipal partners.

"They have expressed concerns, understandably," said Dunham. She added municipalities may have to raise taxes to fund the increase.

"It's going to hit us pretty hard," Quinte West Coun. Terry Cassidy said during Wednesday's health board meeting. He added other Ontario municipalities face a similar problem.

Dunham's written report also warned of "a significant potential service impact" in addition to the rising municipal costs.

Some funds once routed into reserves have been used lately to balance deficit budgets.

In recent years, said Dunham, "The municipalities have been providing about \$355,000 which has gone directly toward programs."

That will instead have to be directed to paying for the municipalities' increased portion of the cost-sharing plan.

"That's troubling ... and, frankly, we have to start planning now," Dunham said.

"We do have concerns about our next year's budget."

Not all health units received mitigation funding. Dunham said it depended upon their size and past negotiations between health boards and their municipalities.

Because Hastings-Prince Edward is "an economically-challenged area," its municipal levy increases have been about one or 1.5 per cent annually in years in which other boards may have had increases of three per cent, for example.

Those increases have been due to ongoing increases in costs, Dunham said.

The board voted Wednesday to send two letters to the Ontario Ministry of Health: one to inform the ministry of the expected impact of the levy increase and another to be sent after the June 2 provincial election to the new health minister. The current minister, Christine Elliott, is not seeking re-election.

Dunham said the hope is to obtain further mitigation funding.

Municipal members of the board are to discussion the matter with their own councils during municipal budget talks for 2023.

Separate from the mitigation funding issue, the board as of March 31 had a first-quarter deficit of \$54,000.

"We have a small deficit. It's a little unusual, but it's not alarming," said Belleville Coun. Bill Sandison, who chairs the board's finance committee.

Dunham said the deficit is due to pandemic response – case and contact management and vaccination. She said it's hoped the ministry will provide one-time funding to close that gap.

"We expect the one-time funding, so we're not too concerned."

First-quarter figures also show cost of running the dental program for seniors exceeds the base budget.

"Services will need to be discontinued in the fall if additional funds are not secured," Dunham wrote in a report to the board.

Subject: Inaugural Meeting

Paul,

Further to our conversation this morning I thought I would draft an opinion quickly so that you can distribute to the lower tier municipalities in a timely fashion if you feel this might be of assistance to them.

As you are aware, the *Municipal Elections Act* provides that for the current term of Council the term ends on November 14, 2022 (s. 6(1.1)). The new term of Council begins on November 15, 2022 (s. 6(1)).

This has the potential to lead to a gap in Council. If the term of the existing Councill ends on the 14<sup>th</sup> and the new Council is sworn in on the 15<sup>th</sup> there is no gap and governance is virtually seamless.

I understand from our conversation that some lower tier municipalities are planning to delay the swearing in of their Councils, which leads to your concern that County Council will be non-existent until sufficient numbers of lower tier Council members are sworn in to constitute a quorum of County Council. As you are also aware, the *Municipal Act* provides that no member of an upper tier council can take a seat on the County Council until the Clerk of the lower tier certifies the names of the members appointed to the County Council (s. 232(4)) and the upper tier members take the oath of office (s. 232(5)).

Section 230 of the *Municipal Act* allows a municipality to hold the inaugural meeting of Council any time within the first 31 days after its term commences. In this case, that term commences on November 15 so a lower tier municipality has until December 16 to hold its first meeting. Because the upper tier municipality cannot be organized until all lower tier members have been sworn in, this could lead to a timing issue for the County. The County also must hold its first meeting on or before the 16<sup>th</sup> of December, so having lower tiers delay their inaugural meetings may risk the County not being able to meet its obligation under section 230 of the *Municipal Act*. my recommendation is that the lower tiers have their inaugural meetings as soon after the election as possible to ensure that all levels of government can comply with section 230.

In the period of time between November 14, when the Council term is deemed to end, and the date of the inaugural meeting of the County Council section 6(3) of the *Municipal Elections Act* provides that all holders of office continue to hold office until their successors are elected and the newly elected Council is organized. "Organized" has a special meaning in the legislation – a Council is not "organized" until its members take the oath of office at the inaugural meeting. Therefore, even though the terms of the lower tier and upper tier councils end on November 14, both Councils are still "organized" and constitute the government of the municipality until the successor council is sworn in – in this way the continuity of local government (upper and lower tier) is assured.

That does not mean that the swearing in can be delayed past the 16<sup>th</sup> of December as that would create a conflict and risk having a gap in governance.

I hope that this provides some clarity. Should you have additional questions please let me know.

Lee Perkins County of Renfrew 9 International Drive Pembroke ON K8A 6W5

Dear Mr. Perkins:

Re: County of Renfrew Development Charges Background Study Consideration

Further to your request, Watson & Associates Economists Ltd. (Watson) is pleased to provide a proposal letter concerning the potential undertaking of the County's first Development Charges (D.C.) Background Study.

As we understand, the County is experiencing increased pressures to undertake upgrades and expansions to its road network as a result of new development. County staff have examined the potential capital program and have identified the following preliminary observations:

- The capital projects will occur in the following municipalities:
  - Arnprior
  - McNab/Braeside
  - Laurentian Valley
  - Petawawa
  - Renfrew
  - Horton
- The estimated total length of the road works is 13.9 km
- The estimated costs of these works are \$49.6 million.

The County has consulted with the lower-tier municipalities to provide potential funding options for the road's capital program. The options were:

- a) Status Quo (continue to deal with projects on an individual basis);
- b) Draft a D.C. Policy;
- c) Increase the County Levy; or
- d) Draft a Cost sharing agreement with the local municipalities.

Through discussions with staff, the County would like to examine the possibility of undertaking a D.C. study to help recover the growth-related costs associated with the road's infrastructure. However, concerns were raised by some of the lower-tier municipalities on the imposition of D.C.s when the road projects are not located in their

community. To address this issue, we propose that the potential County D.C.s for roads be calculated using two different methods:

- 1) County-wide D.C. new development across all local municipalities contributes towards the County's Road network
- 2) Area-Specific D.C. The costs of the road's capital projects are to be recovered from the growth areas that will benefit from the new infrastructure.

In addition to the proposed calculation methods, the D.C. workplan will also consist of:

- 3-4 meetings with County staff (start-up meeting, staff interviews, review meetings, etc.);
- Review of the background information (roads engineering reports, official plans, planning documents, etc.);
- Growth forecast development (both on a County-wide and area-specific basis);
- Developing D.C. policies (timing of payment, exemptions, credits, phase-ins, interest rates, local service policy, etc.);
- Optional meetings to review the D.C. process with Council, local municipalities, and the development community;
- Preparation of the background study and draft by-law; and
- Undertaking the mandatory implementation process (public meeting and by-law passage).

Based on the information provided, we would estimate that the D.C. background study process will costs approximately \$35,000 - \$40,000 (based on the workplan identified above and excludes any optional items/meetings).

If the County would like to include additional D.C.-eligible services (e.g. ambulance, municipal housing, long-term care services, etc.) as part of the D.C. process, then we could accommodate the additional analysis for a budget of approximately \$10,000.

We trust that this letter provides the County with the information it requires to undertake a D.C. background study. If you have any questions regarding this proposal, please do not hesitate to contact us.

Yours very truly,

WATSON & ASSOCIATES ECONOMISTS LTD.

## MANAGEMENT REPORT

Management's Responsibility for the Consolidated Financial Statements

The accompanying consolidated financial statements for The Corporation of the County of Renfrew are the responsibility of the County's management and have been prepared in compliance with legislation, and in accordance with Canadian public sector accounting standards for local governments established by the Public Sector Accounting Board of the Chartered Professional Accountants of Canada.

A summary of the significant accounting policies are described in Note 1 to the consolidated financial statements. The preparation of the consolidated financial statements necessarily involves the use of estimates based on management's judgment, particularly when transactions affecting the current accounting period cannot be finalized with certainty until future periods.

The Corporation of the County of Renfrew's management maintains a system of internal controls designed to provide reasonable assurance that assets are safeguarded, transactions are properly authorized and recorded in compliance with legislative and regulatory requirements, and reliable financial information is available on a timely basis for preparation of the consolidated financial statements. These systems are monitored and evaluated by management.

The Finance & Administration Committee meets with management and the external auditors to review the consolidated financial statements and discuss any significant financial reporting or internal control matters prior to their approval of the consolidated financial statements.

The consolidated financial statements have been audited by Scott Rosien Black & Locke, independent external auditors appointed by The Corporation of the County of Renfrew. The accompanying Auditors' Report outlines their responsibilities, the scope of their examination and their opinion on The Corporation of the County of Renfrew's consolidated financial statements.

#### INDEPENDENT AUDITORS' REPORT

To the Members of Council, Inhabitants and Ratepayers of The Corporation of the County of Renfrew

#### Opinion

We have audited the consolidated financial statements of The Corporation of the County of Renfrew (the Corporation), which comprise the consolidated statement of financial position as at December 31, 2021, and the consolidated statements of operations and accumulated surplus, change in net financial assets and cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the financial position of The Corporation of the County of Renfrew as at December 31, 2021, and the results of its operations, change in net financial assets and its cash flows for the year then ended in accordance with Canadian public sector accounting standards.

#### **Basis for Opinion**

We conducted our audit in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of The Corporation of the County of Renfrew in accordance with the ethical requirements that are relevant to our audit of the consolidated financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

# Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with Canadian public sector accounting standards and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Corporation's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Corporation or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Corporation's financial reporting process.

# Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit.

#### We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether
  due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit
  evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a
  material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve
  collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that
  are appropriate in the circumstances, but not for the purpose of expressing an opinion on the
  effectiveness of the Corporation's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Corporation's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Corporation to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

**Notes to the Consolidated Financial Statements** 

Year ended December 31, 2021

The Corporation of the County of Renfrew is an upper tier municipality in the Province of Ontario, Canada. The provisions of provincial statutes such as the Municipal Act and related legislation guide its operations.

#### 1. Accounting Policies

The consolidated financial statements of The Corporation of the County of Renfrew are the representation of management and are prepared in accordance with Canadian Public Sector accounting standards for local governments as recommended by the Public Sector Accounting Board of the Chartered Professional Accountants of Canada. Significant aspects of the accounting policies adopted by the Corporation are as follows:

#### (a) (i) Basis of Consolidation

These consolidated financial statements reflect the assets, liabilities, operating revenues and expenditures, reserves, and changes in investment in tangible capital assets and include the activities of all committees of Council.

The Renfrew County Housing Corporation has been consolidated.

All inter-fund assets and liabilities and sources of revenues and expenditures have been eliminated.

#### (ii) Trust Funds

Trust funds and their related operations administered by The Corporation of the County of Renfrew are not consolidated, but are reported separately on the "Trust Fund Statements of Financial Position, Financial Activities and Changes in Fund Balance".

#### (b) Basis of Accounting

#### (i) Accrual Basis of Accounting

Revenue and expenditures are reported on the accrual basis of accounting. The accrual basis of accounting recognizes revenues as they are earned and measurable; expenditures are recognized as they are incurred and measurable as a result of receipt of goods or services and the creation of a legal obligation to pay.

#### (ii) Non-Financial Assets

Non-financial assets are not available to discharge existing liabilities and are held for use in the provision of services. They have useful lives extending beyond the current year, and are not intended for sale in the ordinary course of operations. The change in non-financial assets during the year, together with the excess of revenues over expenses, provides the change in net financial assets for the year.

#### (iii) Cash

Cash is defined as cash on hand and cash on deposit, net of outstanding cheques at the reporting date.

## 1. Accounting Policies (continued)

## (b) Basis of Accounting (continued)

### (iv) Tangible Capital Assets

Tangible capital assets are recorded at cost, which includes all amounts that are directly attributable to acquisition, construction, development or betterment of the asset. The cost, less residual value, of the tangible capital assets is amortized on a straight-line basis over their estimated useful lives as follows:

	Estimated useful life
Land improvements Buildings Machinery and equipment Vehicles Linear assets	20 to 25 years 25 to 60 years 5 to 25 years 4 to 20 years 15 to 99 years

Leasehold improvements are amortized on a straight-line basis over the current lease term plus one subsequent lease term.

Construction in progress comprises capital assets under construction, not yet placed into service and pre-construction activities related to specific projects expected to be constructed. Amortization is not recorded on assets under construction.

The Corporation of the County of Renfrew has a capitalization threshold so that individual capital assets of lesser value are expensed.

Tangible capital assets received as contributions are recorded at their fair value at the date of receipt, and that fair value is also recorded as revenue. Similarly, transfers of assets to third parties are recorded as an expense equal to the net book value of the asset as of the date of the transfer.

#### (v) Accounts Receivable

Accounts receivable are reported net of any allowance for doubtful accounts.

#### (vi) Inventory and prepaid expenses

Inventory and prepaid expenses held for consumption are recorded at the lower of cost or replacement value.

## (vii) Deferred Revenue - Obligatory Reserve Fund

The Corporation receives restricted contributions under the authority of federal and provincial legislation. These funds by their nature are restricted in their use and until applied to applicable costs are recorded as deferred revenue. Amounts applied to qualifying expenses are recorded as revenue in the fiscal period they are expended.

Notes to the Consolidated Financial Statements, continued

Year ended December 31, 2021

### 1. Accounting Policies (continued)

## (b) Basis of Accounting (continued)

## (viii) Deferred Revenue

Deferred revenues represent user charges and fees which have been collected but for which the related services have yet to be performed. These amounts will be recognized as revenues in the fiscal year the related expenditures are incurred or services performed.

## (ix) Employee Benefit Plan

The contributions to a multi-employer, defined benefit pension plan are expensed when contributions are due.

The costs of post-employment benefits are recognized when the event that obligates the Corporation occurs. Costs include projected future income payments, health care continuation costs and fees paid to independent administrators of these plans, calculated on a present value basis.

#### (x) Use of Estimates

The preparation of these consolidated financial statements in conformity with Canadian generally accepted accounting principles requires management to make estimates and assumptions which affect the reported amounts of assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenditures for the year. These estimates and assumptions, including such areas as post-employment benefits and useful lives of tangible capital assets, are based on the Corporation's best information and judgement and may differ significantly based on actual results.

## (xi) Financial Instruments

The Corporation has classified its cash and investments as held for trading and they are stated at fair value. Accounts receivable are classified as loans and receivables, which are measured at amortized cost. Accounts payable and accrued liabilities, deferred revenue, long-term liabilities, accrued interest on long-term liabilities and post-employment benefit liabilities are classified as other liabilities which are measured at cost.

#### (xii) Government Transfers

Government transfers are recognized in the consolidated financial statements in the period in which the events giving rise to the transfer occur, providing the transfers are authorized, any eligibility criteria have been met and reasonable estimates of the amounts can be made.

## (xiii) Liabilities for Contaminated Sites

The liability for remediation of contaminated sites will be recognized when an environmental standard exists, the contamination exceeds the environmental standard, the Corporation is directly responsible for remediation of the contaminated site, and a reasonable estimate of the amount can be made.

## 1. Accounting Policies (continued)

## (b) Basis of Accounting (continued)

### (xiv) Restructuring:

PS 3430 defines a restructuring transaction and establishes standards for recognizing and measuring assets and liabilities transferred in a restructuring transaction. The main features of PS 3430 are as follows:

- A restructuring transaction is a transfer of an integrated set of assets and/or liabilities, together
  with related program or operating responsibilities without consideration based primarily on the fair
  value of the individual assets and individual liabilities transferred;
- The net effect of a restructuring transaction should be presented as a separate revenue or an expense item in the consolidated statement of operations;
- A recipient should recognize individual assets and liabilities received in a restructuring transaction at their carrying amount with applicable adjustments at the restructuring date;
- A transferor and a recipient should not restate their financial position or results of operations; and
- A transferor and a recipient should disclose sufficient information to enable users to assess the nature and financial effects of a restructuring transaction on their financial position and operations.

#### 2. Trust Funds

Trust funds administered by The Corporation of the County of Renfrew amounting to \$160,628 (2020 - \$143,798) have not been included in the "Consolidated Statement of Financial Position" nor have their operations been included in the "Consolidated Statement of Operations".

## 3. Pension Agreement

The Corporation of the County of Renfrew, on behalf of its eligible employees, is a participant in the Ontario Municipal Employees Retirement System (OMERS). OMERS is a defined benefit pension plan, fully funded by equal contributions from participating employers and employees, and by the investment earnings of the OMERS Fund. OMERS pensions are calculated using a defined benefit formula, taking into account length of service and average annual wage that is designed to integrate with the pension payable from the Canada Pension Plan.

Because OMERS is a multi-employer plan, the County of Renfrew does not recognize any share of the plan deficit of \$69 million (2020 - \$7.655 billion) based on the total fair market value of the plan's assets, as this is a joint responsibility of all Ontario municipalities and their employees.

The amount contributed to OMERS for 2021 was \$3,409,791 (2020 - \$3,323,909) for current service and is included as an expenditure on the Consolidated Statement of Operations. At December 31, 2021 there is no liability for past service under this agreement.

## 5. Temporary Construction Loan

During 2018 the Corporation established a temporary construction loan from Ontario Infrastructure and Lands Corporation (OILC) to finance the rehabilitation of Madawaska River Bridge. The construction loan has been authorized to a maximum of \$6 million with a floating interest rate throughout the term of the loan until it is replaced by a debenture.

On May 26, 2021, the Corporation converted the temporary construction loan to a 2.08% Amortizing Debenture in the amount of \$4,684,900 with a maturity date of June 15, 2031 and semi-annual payments of \$260,662, including interest.

## 6. Deferred Revenue - Obligatory Reserve Fund

#### 11. Commitments (continued)

This acquisition is recorded as a tangible capital asset - construction in progress on the consolidated statement of financial position. It is anticipated that the remaining amount under this commitment will be transferred in 2022.

## 12. Contingencies

At December 31, 2021 the Corporation of the County of Renfrew is defending itself with respect to legal actions for damages.

The impact of these actions on the consolidated financial statements is not determinable as at the date of the auditors' report. Neither the possible outcome nor the amount of possible settlement, if any, can be foreseen. Therefore, no provision has been made in the consolidated financial statements.

In the event that any amount is payable, it will be recorded as an expenditure in the year it is disbursed.

## 13. Budget Figures

The operating budget approved by County Council for 2021 is reflected on the consolidated statement of operations. Budget figures have not been audited and are presented for information purposes only. The budgets established for capital investment in tangible capital assets are on a project-oriented basis, the costs of which may be carried out over one or more years and, therefore, may not be comparable with current year's actual expenditure amounts. Budget figures have been reclassified for the purposes of these consolidated financial statements to comply with Public Sector Accounting Board (PSAB) reporting requirements.

## 14. Uncertainty due to COVID-19

In March 2020 the World Health Organization declared a global pandemic due to the novel coronavirus (COVID-19). The situation is constantly evolving, and the measures put in place are having multiple impacts on local, provincial, national and global economies. The overall effect of these events on the Corporation of the County of Renfrew and its operations is too uncertain to be estimated at this time. The impacts will be accounted for when they are known and may be assessed.

## 15. Restructuring of Opeongo Non-Profit Community Residential Development Inc.:

The Renfrew County Housing Corporation (RCHC) and Opeongo Non-Profit Community Residential Development Inc. (Opeongo) underwent a restructuring transaction on December 31, 2020. Opeongo ceased to provide low-income housing under the Housing Services Act, 2011, and transferred all assets, liabilities, and tenants to RCHC. As a result of the restructuring the Corporation of the County of Renfrew has recognized in its Consolidated Statement of Financial Position at December 31, 2020 a receivable from Opeongo of \$975,433; land with a carrying value of \$110,357; buildings with a carrying value of \$317,880; accrued liabilities of \$11,000; and long-term liability of \$424,863.

Following is a reconciliation of the assets and liabilities transferred on December 31, 2020 that resulted in the restructuring gain of \$790,657 on the Consolidated Statement of Operations and Accumulated Surplus:

Restructuring gain	\$ 790,657
Payable to Renfrew County Housing Corporation	(177,150)
Long-term debt	(424,863)
Accounts payable and accrued liabilities	(11,000)
Tangible capital assets	428,237
being cash and investments	\$ 975,433
Accounts receivable from Opeongo	

The County of Renfrew is the sole shareholder of Renfrew County Housing Corporation and the service manager designated for both Opeongo and RCHC under the Housing Services Act 2011.

#### 16. Financial instruments

## (a) Fair value:

The carrying values of cash, investments, accounts receivable, accounts payable and accrued liabilities, temporary construction loans, deferred revenue and accrued interest on long-term liabilities approximate the fair value due to their short-term nature.

The carrying value of the long-term liabilities is considered to be its fair value because the interest rate approximates the market rate that would be available to the Corporation for the same or similar instruments at December 31, 2021.

#### (b) Interest rate risk:

The long-term liabilities bear interest at fixed interest rates. Consequently, the long-term debt risk exposure is minimal.

Notes to the Consolidated Financial Statements, continued

Year ended December 31, 2021

## 16. Financial instruments (continued)

## (c) Credit risk:

The Corporation provides credit to other agencies and to its tenants during the normal course of operations. The Corporation determines on a continuing basis, the probable losses and records a provision for losses based upon the stated realizable value. Concentration of credit risk with respect to accounts receivable is limited due to the number of other agencies and tenants involved. The Corporation does not run any significant risk with respect to a single account receivable.

It is the Management's opinion that the Corporation is not exposed to significant interest, currency or credit risks arising from its financial instruments.

## INDEPENDENT AUDITORS' REPORT

To the Members of Council, Inhabitants and Ratepayers of The Corporation of the County of Renfrew

#### Opinion

We have audited the trust fund financial statements of The Corporation of the County of Renfrew (the Corporation), which comprise the statement of financial position as at December 31, 2021, and the statement of financial activities and change in fund balance for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying trust fund financial statements present fairly, in all material respects, the financial position of the trust fund of The Corporation of the County of Renfrew as at December 31, 2021, and the results of its financial activities and change in fund balances for the year then ended in accordance with Canadian public sector accounting standards.

#### Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Trust Fund Financial Statements section of our report. We are independent of The Corporation of the County of Renfrew in accordance with the ethical requirements that are relevant to our audit of the trust fund financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

# Responsibilities of Management and Those Charged with Governance for the Trust Fund Financial Statements

Management is responsible for the preparation and fair presentation of the trust fund financial statements in accordance with Canadian public sector accounting standards and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the trust fund financial statements, management is responsible for assessing the Corporation's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Corporation or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Corporation's financial reporting process.

## Auditor's Responsibilities for the Audit of the Trust Fund Financial Statements

Our objectives are to obtain reasonable assurance about whether the trust fund financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit.

#### We also:

- Identify and assess the risks of material misstatement of the trust fund financial statements, whether due
  to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit
  evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a
  material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve
  collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that
  are appropriate in the circumstances, but not for the purpose of expressing an opinion on the
  effectiveness of the Corporation's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Corporation's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Corporation to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the trust fund financial statements, including
  the disclosures, and whether the trust fund financial statements represent the underlying transactions and
  events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

June 16, 2022

Dear Finance and Administration Committee Members:

We have been engaged to audit the consolidated financial statements of The Corporation of The County of Renfrew (the "Municipality") for the year ending December 31, 2021.

Canadian generally accepted auditing standards required that we communicate at least annually with you regarding all relationships between the Municipality and Scott Rosien Black & Locke, in our professional judgement, may reasonably be thought to bear on our independence. These standards also require that we communicate to you the total fees charged to the Municipality for non-audit services during the last year.

In determining which relationships to report, these standards require us to consider relevant rules and related interpretations prescribed by the appropriate provincial institute and applicable legislation, covering such matters as:

- (a) holding a financial interest, either directly or indirectly, in a client;
- (b) holding a position, either directly or indirectly, that gives the right or responsibility to exert significant influence over the financial or accounting policies of a client;
- (c) personal or business relationships or immediate family, close relatives, partners or retired partners, either directly or indirectly, with a client;
- (d) economic dependence on a client; and
- (e) provision of services in addition to the audit engagement.

We have prepared the following comments to facilitate our discussion with you regarding independence matters arising since June 17, 2021, the date of our last letter regarding independence.

The Corporation of the County of Renfrew Child Care Services Department rented space at 545 Pembroke Street West, Pembroke, Ontario until May 2021. This building is owned by the spouses of some of the partners of Scott Rosien Black & Locke.

## SCOTT ROSIEN BLACK & LOCKE

Mrs. Jennifer Murphy, Chair Finance and Administration Committee

June 16, 2022 Page 2

We are not aware of any other relationships between the Municipality and us that, in our professional judgement, may reasonably be thought to bear on our independence, that have occurred from June 17, 2021 to June 16, 2022.

The total fees charged to the Corporation of the County of Renfrew for audit services were \$55,033.00 and for other services were \$1,699.00 during the period from January 1, 2021 to December 31, 2021. The appendix provides an analysis of these services according to the types of services and dollar ranges agreed with you.

GAAS requires that we confirm our independence to the audit committee. However, since the Rules of Professional Conduct of the Chartered Professional Accountants of Ontario deal with the concept of independence in terms of objectivity, our confirmation is to be made in that context. Accordingly, we hereby confirm that we are objective with respect to the Municipality within the meaning of the Rules of Professional Conduct of the Chartered Professional Accountants of Ontario as of June 16, 2022.

This report is intended solely for the use of the finance and administration committee, the executive committee, management, and others within the Municipality and should not be used for any other purposes.

Yours truly,

SCOTT ROSIEN BLACK & LOCKE

June 7, 2022

Dear Sirs:

We have recently completed our audit examination of the consolidated financial statements of The Corporation of the County of Renfrew for the year ended December 31, 2021. The purpose of this letter is to bring to your attention certain matters that we encountered in the course of our work and to offer our comments and recommendations. These comments, by their nature, are critical and do not address the many strong features and controls within the Corporation's systems.

The primary purpose of our examination was to enable us to form an opinion on the consolidated financial statements of The Corporation of the County of Renfrew for the year ended December 31, 2021. We reviewed and tested the Corporation's financial systems and related internal controls to the extent we considered necessary to evaluate the systems as required by generally accepted auditing standards. Our study and evaluation with respect to these financial systems was not designed for the purpose of expressing an opinion on the internal controls. It would not necessarily disclose all weaknesses in the system.

As a result of our audit examination, we have no specific recommendations that should be considered by Council at this time.

Yours very truly,

SCOTT ROSIEN BLACK & LOCKE

Dear Councillor Jennifer Murphy:

## **Re: Audit Findings**

This letter has been prepared to assist you with your review of the consolidated financial statements of The Corporation of the County of Renfrew for the period ending December 31, 2021. We look forward to meeting with you and discussing the matters outlined below.

## **Audit Status**

We have completed the audit of the consolidated financial statements, with the exception of the following items:

- 1. Receipt of a signed representation letter by management;
- 2. Completing our discussions with County Council;
- 3. Obtaining evidence of the Council's approval of the financial statements;

Once these items have been completed, we will date and sign our auditor's report.

## **Significant Matters Arising**

## Changes to Audit Plan

There were no changes to the audit plan as previously presented to you in our audit planning letter dated December 17, 2021.

## Significant Difficulties Encountered

There were no significant difficulties encountered during our audit.

## **Comments on Accounting Practices**

## Accounting Policies

The significant accounting policies used by the entity are outlined in Note 1 to the consolidated financial statements.

- There were no significant changes in accounting policies
- We did not identify any alternative accounting policies that would have been more appropriate in the circumstances
- We did not identify any significant accounting policies in controversial or emerging areas.

### SCOTT ROSIEN BLACK & LOCKE

Finance & Administration Committee

## Significant Accounting Estimates

The following significant estimates/judgments are contained in the consolidated financial statements:

- Allowance for doubtful accounts;
- Book value of capital assets;

Based on audit work performed, we are satisfied with the estimates made by management.

## Significant Financial Statement Disclosures

We did not identify any financial statement disclosures that are particularly significant, sensitive or require significant judgments, that we believe should be specifically drawn to your attention.

#### **Uncorrected Misstatements**

We accumulated uncorrected misstatements that we identified during our audit and communicated them to management. The uncorrected misstatements for the current period have been included in Appendix A.

## **Significant Deficiencies in Internal Control**

A deficiency in internal control exists when a control is designed, implemented or operated in such a way that it is unable to prevent, or detect and correct, misstatements in the financial statements on a timely basis, or when a control necessary to prevent, or detect and correct, misstatements in the consolidated financial statements on a timely basis is missing.

A significant deficiency in internal control is defined as a deficiency or combination of deficiencies in internal control that, in the auditor's professional judgment, is of sufficient importance to merit the attention of those charged with governance.

To identify and assess the risks of material misstatement in the consolidated financial statements, we are required to obtain an understanding of internal control relevant to the audit. This understanding is used for the limited purpose of designing appropriate audit procedures. It is not used for the purpose of expressing an opinion on the effectiveness of internal control and, as a result, we do not express any such opinion. The limited purpose also means that there can be no assurance that all significant deficiencies in internal control, or any other control deficiencies, will be identified during our audit.

We did not identify any control deficiencies that, in our judgment, would be considered significant deficiencies.

## Written Representations

In a separate communication we have requested a number of written representations from management in respect to their responsibility for the preparation of the consolidated financial statements in accordance with Canadian Public Sector Accounting Standards.

## Other Audit Matters of Governance Interest

We did not identify any other matters to bring to your attention at this time.

Revised: June 2022

June 29, 2022

To the Council of the Corporation of the County of Renfrew

Members of County Council:

We, your **Operations Committee**, wish to report and recommend as follows:

## **INFORMATION**

1. Monthly Project Status Report [Strategic Plan Goal No. 3]

Attached as Appendix I is the Monthly Project Status Report for the information of Council.

2. Capital Program Variance Report [Strategic Plan Goal No. 3]

Attached as Appendix II is the Capital Program Variance Report for the information of Council.

3. County Structures C012 (Farquharson's Creek Culvert) and C134 (Campbell Drive Culvert) [Strategic Plan Goal No. 2]

County Structures CO12 (Farquharson's Creek Culvert) located on South McNaughton Road in the Township of Admaston/Bromley and C134 (Campbell Drive Culvert) located on Campbell Drive in the Township of McNab/Braeside had been scheduled for rehabilitation in 2022. The Design Consultant for both structure rehabilitation projects has advised staff that due to the culverts being in better condition than originally anticipated, rehabilitation may be postponed for one to three years. Given this information and the high tender prices received in 2022, staff deferred the rehabilitation of the culverts until 2024.

## **RESOLUTIONS**

# 4. Capital Program Overages [Strategic Plan Goal No. 2]

#### **RESOLUTION NO. OP-CC-22-06-76**

Moved by Chair Seconded by Committee

THAT County Council approve that the planned 2022 construction for County Structures B064 (Pilgrim Road Bridge), C012 (Farquharson's Creek Culvert), C040 (Snake River Culvert), C134 (Campbell Drive Culvert), C137 (Hanson Creek Culverts), and C197 (Etmanskie Swamp Culvert) be deferred to a later year.

# **Background**

Staff are currently reviewing the economic climate and its impact on the benchmark costs used to develop our Asset Management Plan (and subsequently our Long-Term Financial Plan) going forward. Due to the overages being realized over most Capital Projects in 2022, it is recommended that several projects be deferred until future years.

County staff have initiated conversations with Finance and Public Works staff from other municipalities and confirmed that significant cost increases are being realized on all projects in other areas as well.

The projects listed below will have design completed in 2022, but it is recommended that construction be postponed to 2023 or later in order to reduce overages on our overall 2022 Capital Budget:

- B064 (Pilgrim Road Bridge) \$139,308 carried over;
- C012 (Farquharson's Creek Culvert) \$97,000 carried over;
- C040 (Snake River Culvert) \$68,000 carried over;
- C134 (Campbell Drive Culvert) \$547,000 carried over;
- C137 (Hanson Creek Culverts) \$82,000 carried over; and
- C197 (Etmanskie Swamp Culvert) \$350,000 carried over.

With the exception of C197, all structures listed above can have construction postponed for one to three years without significant risk to the overall structure. It is recommended that any works which may be completed for C197, such as design, approvals, and supply of liner material,

be completed in 2022 so that the project may proceed early in the 2023 construction season.

In total, this budget deferral of \$1,283,308 will provide some relief against the cost overages the Capital Program has experienced already in 2022.

## **BY-LAWS**

# 5. County Road 9 (Bulger Road) Community Safety Zone [Strategic Plan Goal No. 2]

#### **RESOLUTION NO. OP-CC-22-06-73**

Moved by Chair

Seconded by Committee

THAT County Council adopt a By-law authorizing the approval of a Community Safety Zone on County Road 9 (Bulger Road) between 500 metres north of civic address 2065 and 500 metres south of civic address 2065 for a total distance of 1.0 kilometre.

# Background

In response to a request made by the Shaw Woods Outdoor Education Centre, the Township of North Algona Wilberforce has submitted a resolution, which is attached as Appendix III, in support of a change to the posted speed limit of County Road 9 (Bulger Road) between Highway 41 and Stone Hedges Road and that a Community Safety Zone be enacted between Highway 41 and Basswood Road.

County staff reviewed the request and wish to provide the following information. County Road 9 (Bulger Road) is a local rural roadway with an Average Annual Daily Traffic (AADT) volume of approximately 800 vehicles. The Public Works and Engineering Department are in the process of updating traffic counts and conducting a radar speed study to determine average operating speeds along this section of road. Staff will share the information with the local detachment of the Ontario Provincial Police (OPP) for their consideration.

The roadway features of Bulger Road include a 7.0 metre surface treated road surface with a gravel shoulder. Utilizing a ball-bank indicator mounted in a County Public Works truck, staff have verified that all horizontal curves

meet the requirements for an 80km/hr design speed. All vertical curves in the subject area also meet the requirements for an 80km/hr design speed.

A top priority for Shaw Woods Outdoor Education Centre is with the safe crossing of the roadway for large student groups that attend the facility on field trips. In 2016, the County of Renfrew partnered with Shaw Woods to install an enhanced pedestrian crossing facility that includes advanced warning beacons located 350 metres up and downstream of the crossing in addition to beacons located at the crossing. The beacons are push button activated and the timing has been set to allow groups to cross within the flashing cycle. In view of the foregoing, County staff is not in favour of a reduction in the posted speed limit at this location.

County staff further reviewed the request for a Community Safety Zone (CSZ) in accordance with the guidelines set out in the Ontario Traffic Manual – Book 5 – Regulatory Signs. The general location does meet the warrants for a CSZ as it is located within an area of a park/school. The effectiveness of the warning beacon system is directly impacted by the operational speed of vehicles as they enter the warning system zone, and therefore it is important that vehicles are travelling within a reasonable range of 80km/hr. To amplify this importance, staff is in favour of a Community Safety Zone extending 500 metres on either side of Shaw Woods Outdoor Education Centre for a total distance of 1.0 kilometre.

# 6. Request for Tenders – Bridge and Road Rehabilitations [Strategic Plan Goal No. 2]

The following Request for Tenders were issued during the month of May for the Public Works and Engineering Department. Staff reviewed the tender results and note there are overages in several of the tenders compared with the budget. However, as costs for these projects are not anticipated to be reduced should the projects be postponed, and the works tendered are necessary in order to ensure more significant works are not needed in the near future, it is recommended the contracts be awarded. Tenders were processed in accordance with County of Renfrew Corporate Policy GA-01 Procurement of Goods and Services.

DEBBIE ROBINSON, WARDEN PAUL V. MOREAU, CLERK

June 29, 2022

To the Council of the Corporation of the County of Renfrew

Members of County Council:

We, your **Health Committee**, wish to report and recommend as follows:

## **INFORMATION**

## 1. COVID-19 Pandemic Update – Long-Term Care [Strategic Plan Goal #3]

We are pleased to advise that both Homes remain clear of outbreak status since early May. In accordance to the resolution passed by Council last month, Homes continue to require staff, volunteers, students and essential care givers to have three doses of COVID-19 vaccine to enter the Home with general visitors requiring two doses. As was supported by Council, County of Renfrew Homes are included as one of forty-two signatories to the recently posted AdvantAge Ontario Member Mandatory Vaccination Coalition.

At present both Bonnechere Manor and Miramichi Lodge continue to exceed the minimum requirement for twice weekly rapid antigen testing, electing to test daily in an effort to identify COVID positive cases at the door on day one versus potentially days later.

While the current COVID-19 response measures require indoor masking and only recommend masking for outdoor visits, County of Renfrew Homes require outdoor masking for visitors given there is no requirement for vaccination for outdoor visits.

Dr. Kieran Moore, Chief Medical Officer of Health, announced on June 8, 2022 that provincial masking requirements, including on public transit, will expire as of 12:00 a.m. on June 11, 2022, but that masks will still be required in Long-Term Care and retirement homes.

#### **BY-LAWS**

## 5. Clinical Assessment Centres [Strategic Plan Goal # 3]

## **RESOLUTION NO. H-CC-22-06-57**

Moved by Chair

Seconded by Committee

## **Background**

The proposed lease with ConnectWell Community Health in Cobden will expand services currently available through existing Assessment Centres to the communities in the eastern and western ends of the County of Renfrew by providing a central location to access testing and treatment of COVID-19, vaccinations, and other health and wellness services.

RCVTAC has seen an expansion in the variety of calls received for medical services. The ability of RCVTAC to support physicians by providing physical assessments from a simple height/weight evaluation for proper medication prescription, to diagnostic tests for Streptococcus A, to latent health issues that are discovered during routine clinical assessments all contribute to improving patient health and the effectiveness of RCVTAC.

## 6. Hospital/Paramedic Service Partnership [Strategic Plan Goal # 3]

## **RESOLUTION NO. H-CC-22-06-58**

Moved by Chair

Seconded by Committee

THAT County Council pass a By-law authorizing the Warden and CAO to sign the Agreement between the County of Renfrew and Pembroke Regional Hospital for a partnership with the County of Renfrew Paramedic Service to include an Advanced Care Paramedic in the Emergency Department.

## **Background**

This agreement was brought forward in January 2021. It has been revised to request Advanced Care Paramedics only.

Several pressure points including staffing shortages, particularly in hospital ERs have had detrimental effects to service delivery by increasing off-load delays and ability to provide coverage to our community.

For the past 10 years, Paramedics have increased knowledge, scope of practice and ability to the point that hospitals look to the Paramedic Service for solutions to assist with patient care.

The benefits of including Advanced Care Paramedics in the Emergency Department care team, working with our health care partners to alleviate off-load delays, ensure continuity of care, and keep patients from falling into the cracks of an over-taxed system.

The opportunity exists to have a Paramedic placed in the Emergency Department, at no cost to the County of Renfrew, to assist our hospital partners while increasing the level of knowledge clinically and at a system level.

From an Ontario Health integration perspective, this partnership of care for our patients is an opportunity to collaborate and break the systemic health care silo that currently exists – this is a model of the future.

All of which is respectfully submitted.

COVID-19 Vac	COVID-19 Vaccination for County of Renfrew LTCH's				
DATE:	REV. DATE:	COVERAGE:	PAGE #:

#### **BACKGROUND**

The County of Renfrew Department of Long-Term Care wishes to establish a policy that accurately reflects its duty to protect the health and safety of both our vulnerable Long-Term Care residents and the workforce without sacrificing its duty to comply with laws related to Human Rights and Privacy.

We continue to strive to achieve a balance between protecting residents from the evolving level of COVID-19 risk, and supporting overall quality of life and health and wellbeing of residents and their valued team members. We also remain conscious of the need to mitigate staffing pressures to ensure that we continue to provide high quality of care, while seeking to enhance staff satisfaction and experience.

In accordance with Ministry of Health (MOH) guidance, the *County of Renfrew Long-Term Care Home COVID-19 Vaccination Policy* is developed based on science, current best practices, regulatory review, and public health expertise in the context of the evolving global COVID-19 pandemic.

Vaccination remains the best defense against COVID-19, and, combined with other preventative measures, high vaccination rates help limit and prevent the spread of this virus in Long-Term Care homes. Vaccination against COVID-19 helps reduce the number of new cases, and, most importantly, reduces severe outcomes including hospitalizations and death due to COVID-19 in both residents and others who may be present in the long-term care environment.

Frontline healthcare workers can be at risk for occupational exposure and can potentially transmit infection to vulnerable populations. Healthcare workers are essential to the provision of healthcare, and their absence due to illness could compromise health system capacity.

Optimizing the protection of healthcare workers can help to balance any disproportionate burden of those taking on additional risks to protect the public, thereby upholding the ethical principle of reciprocity. Maintaining health system capacity is crucial to minimize serious illness and overall deaths while minimizing societal disruption as a result of the COVID-19 pandemic.

While the primary 2-dose COVID-19 vaccine series provided heroic efficacy against COVID-19, emerging evidence has now demonstrated a considerable decrease in COVID-19 vaccine

protection against COVID-19 infection over time, and reduced efficacy against the variants of concern (VoC's) including the now predominant Delta and Omicron variants and sub-variants.

"Booster Doses" are COVID-19 vaccines administered after the primary 2-dose series. The intent of a booster dose is to restore the protection that may have decreased to a level that is no longer sufficient for prevention or protection against COVID-19 and/or VoC's. Studies have evidenced improved vaccine efficacy with the booster dose against both the Delta and Omicron variants.

In high-risk settings like long-term care homes, vaccines have proven to be very effective against severe illness and outcomes, especially with a third or fourth dose. Evidence shows that boosters are highly effective against severe outcomes, including hospitalizations and death, with a third dose restoring protection from hospitalization to 95%.

This means people who received a third dose are less likely to become infected and then pass the virus to others.

With less people infected within long-term care homes, residents can enjoy the freedoms that support theirs and their family's overall health and wellbeing. Additionally, with less COVID-19 infections, there is a decreased risk for workers and lessened impact on the workforce as a whole, resulting in reduced staffing challenges and an overall improved experience for workers.

## **POLICY STATEMENT**

This policy is intended to proactively protect those who are at greatest risk of both exposure and serious harms due to COVID-19, prior to severe outcomes being observed.

The County of Renfrew will take every reasonable precaution in the circumstances for the protection of both vulnerable long-term Care residents in accordance with the Long-Term Care Homes Act, 2007, and workers from the hazards of COVID-19 per *Occupational* Health *and Safety Act, 1990 ("OHSA")*, O. Reg. 79/10, and any other applicable legislation or Directives. The County endeavors to encourage, support and maximize COVID-19 vaccination in its workplaces, and recognizes it as a critical preventative and control measure.

Towards this effort, a transparent and evidenced based risk analysis framework will be applied to guide the determination of appropriate infection prevention and control and health and safety measures.

The National Advisory Committee on Immunization (NACI) has outlined key considerations in determining risk, inclusive of immunization status and requirements for booster dose(s) of the COVID-19 vaccine. This risk analysis will guide decision-making, and support re-evaluation at appropriate intervals. **This policy will be re-evaluated in August 2022.** 

	Assessment of:	Considerations:
Jurisdictional	Local epidemiology	Circulation of virus, including VoC     Evidence of decreasing protection against severe disease, infection, transmission
	Health system capacity and access	Limited health system capacity to withstand a surge in cases     Reduced access to health care
	Vaccine coverage of primary series in the population	Lower vaccine coverage at a regional population level leads to lower indirect protection and higher risk of breakthrough infection
Individual	Risk of increased waning of protection and/or less protection	Shorter interval between doses in the primary series     Longer time since completion of primary series     Moderately to severely immunocompromised individuals     Vaccination with only viral vector vaccines
	Risk of severe illness from COVID-19	Older age     Underlying medical condition (including those who are immunocompromised and who received a three-dose primary series)     Racialized and marginalized populations who have been disproportionately affected due to a number of intersecting equity factors
	Risk of transmission to individuals at increased risk of severe illness from COVID-19	Close contact with those at risk for severe disease (e.g., healthcare provider, primary caregiver)     Decreased ability to physically distance (e.g., congregate living settings)     Decreased access to infection prevention and control measures

Members of County Council:

We, your **Development and Property Committee**, wish to report and recommend as follows:

## **INFORMATION**

## 1. Manager of Economic Development Services

We are pleased to announce that Melissa Marquardt has accepted the position of Manager of Economic Development Services, which encompasses the Economic Development Division, Ottawa Valley Tourist Association, and Enterprise Renfrew County. Melissa has worked with the County for 17 years in the tourism industry alongside the former Manager of Economic Development, Alastair Baird.

## 2. Climate Action Plan [Strategic Plan Goal No. 2]

County of Renfrew staff issued a Request for Proposal (RFP) twice in 2022, with proposal submission deadlines of April 14 and May 20 respectively. Unfortunately, neither of these calls resulted in a single response that could be evaluated and/or awarded. In an effort to move this action item forward, staff will consult with known climate action plan consultants to determine if new criteria needs to be established along with a change to the budget required to complete this plan. A report will be brought to Council for future consideration.

# 3. County Intervention to Canadian Nuclear Safety Commission (CNSC) [Strategic Plan Goal No. 1]

County Councillor Peter Emon, representing Warden Debbie Robinson and County Council, submitted a verbal intervention to the CNSC Public Hearing on June 3, 2022 in support of Canadian Nuclear Laboratories' (CNL) application to amend its Chalk River Laboratories (CRL) site licence to authorize construction of a Near Surface Disposal Facility (NSDF). The CNSC

Public Hearings were held in Pembroke from May 29 to June 3, 2022. The Town of Deep River also provided a verbal intervention supporting the CNL application for a site licence amendment for Chalk River Laboratories to authorize the construction of a NSDF. Attached as Appendix I are the notes from Councillor Emon's verbal intervention to the CNSC.

## 4. International Travel Trade Familiarization Tour [Strategic Plan Goal No. 1]

The Ottawa Valley Tourist Association (OVTA), Ontario's Highlands Tourism Organization (OHTO) and various tourism operators recently hosted the first international travel trade Familiarization (FAM) tour to the region since 2019 from May 19 to 24, 2022, welcoming tour operators from France, Mexico, Japan, United Kingdom, Netherlands, South Korea and Canada.

Supported by Destination Ontario, this tour was one of the official pre-tours of Rendez-vous Canada, Canada's largest tourism marketplace that brings together international tour operators with sellers of Canadian tourism products and destinations for one-on-one appointments and networking.

Due to the storms that ripped through Eastern Ontario while the tour was taking place, last minute changes had to be made to the itinerary due to severe damage in the Peterborough and Bon Echo areas which resulted in the group spending an extra night in the Ottawa Valley and having the opportunity to visit additional locations in the region.

Locations on the FAM tour included:

- Rafting with Madawaska Kanu Centre
- 2 nights at Spectacle Lake Lodge, including canoeing and hiking
- Tour of Barry's Bay
- Visit to the Bonnechere Caves and tour of Eganville
- Tour of Killaloe and treats at Beavertails

## 5. Giant Screen Marketing in Greater Toronto Area (GTA) – OVTA and Economic Development Services Collaboration (Strategic Plan Goal No. 1)

OVTA and Economic Development Services collaborated on a marketing program in the GTA utilizing 18 giant video screens located at strategic sites along the major four hundred series highways running through Canada's most populated region. Showcased were 160,000 impressions of 8-second-

long video messages, one promoting tourism and one promoting county lifestyle and career opportunities. The campaign ran from June 6 to June 19, 2022. These giant screens measure 14' X 48' and are situated prominently along Highways 401, 403, and 407.

This is a first trial of this marketing channel and, if successful, staff will consider future use of these giant screens to reach the large and nearby GTA audience of tourists, investors, workforce and retirees.

Staff will utilize Google Analytics to measure any pattern changes to our tourism related inquiries and social media traffic through OVTA. Staff will also utilize Google Analytics to measure changes in our economic development social media and communications traffic. The other aspect of measuring results will be by anecdotal evidence. Staff will tabulate and evaluate any increases in direct comment or communications received by tourism and economic staff by any persons who saw the videos, local or GTA residents.

Attached as Appendix II are the two marketing images that are appearing on the 18 giant video screens in the GTA.

## 6. Starter Company Plus/Summer Company [Strategic Plan Goal No. 1]

The first intake for Starter Company Plus 2022/2023 program year has 14 participants. These new entrepreneurs will undergo three months of business training, coaching and mentoring from Enterprise Renfrew County staff, business coaching professionals, local business professionals and local volunteer entrepreneurs. At the end of the training sessions, those clients who wish to continue may compete in our business plan pitch contest where they may be awarded up to \$4,000 funding to utilize towards their business operations.

Summer Company recruitment has yielded five applicants and staff is reviewing and updating the business plans from these student entrepreneurs. Once the reviews are complete, the business plans will be evaluated and successful young entrepreneurs will join our 2022 Summer Company program.

## 7. Cedar Leafminer Insect Update

There have been multiple public inquiries about browning cedar trees in the County. This is caused by a native insect called cedar leafminer. Cedar leafminer has not been known to cause widespread death of cedar trees, but the insect "mines" out the inside of cedar leaves, starting at the branch tips and moving inwards, causing the trees to look quite brown in the spring. Most trees are still green closer to the bole and are able to regrow new leaves. More information is available here: <a href="Cedar Leafminer Fact Sheet (Irconline.com">Cedar Leafminer Fact Sheet (Irconline.com</a>). Defoliation is particularly visible along Highway 41 from Pembroke to Dacre, and towards Renfrew.

## 8. Windstorm Destruction – Renfrew County Forests (RCF)

The May 21, 2022 windstorm impacted some tracts of the RCF. Staff are still mapping and evaluating damage in 10 potentially affected tracts, which is a time-consuming activity on the ground. It is likely that salvage operations will be necessary. There is only a window of two months to salvage pine once it is on the ground, or it stains and is no longer merchantable. Destructive wind events are becoming a near-annual event, and monitoring for this type of damage is difficult with the current capacity of the Division. Staff are investigating the purchase of a drone for mapping and monitoring purposes. Staff have been communicating with other land managers and colleagues in the County to gather as much information as possible, and have requested any available information about damage location or mapping resources from paramedic services.

The 2017-2026 Forest Management Plan does encourage salvage, as indicated in the excerpts below:

"Section 3.5.8, point 6: Salvage merchantable timber where possible. In the event of unexpected natural events, such as wind, fire or drought, efforts will be made to make use of merchantable material. Artificial regeneration efforts will be considered, where appropriate. An amendment to the Forest Management Plan will not be required.

Section 5.3.1.2: Salvage operations, such as recovering wind-thrown, burned, flooded, diseased or insect-damaged timber may be made at the discretion of County staff without a public tender process."

## 9. World Forestry Congress

In January 2021 County Council approved the appointment of County Forester, Lacey Rose to the Inaugural Board of the Global Network for Young Professionals in Forestry. Lacey attended the World Forestry Congress in Seoul, South Korea from May 2-6, 2022 and delivered a presentation during the session titled "The Future is Now: Investing in Young Forestry Professionals and Career Development."

A media release titled "County Forester presents at World Forestry Congress in South Korea" providing further information on Lacey's experience is posted on the County website.

## 10. DP Trails-2022-01 - Quarry Limestone Crusher Dust Supply and Delivery to K & P Recreational Trail [Strategic Plan Goal No. 2]

Tenders were requested and received for the trail rehabilitation on the K & P Recreational Trail from Murphy Road to Pucker Street (Greater Madawaska), a distance of approximately 4.9 km in the Township of Greater Madawaska as follows:

1. Goldie Mohr Ltd., Ottawa ON	\$102,654.87
2. McCrea Excavating Ltd., Pembroke ON	\$139,995.00
3. G.P. Splinter Forest Products	\$189,615.00
and Construction, Pembroke ON	
All amounts exclude applicable taxes	

This project area, which encompasses two sections, is part of the County's successful Rural Economic Development (RED) and the Ontario Trillium Foundation grant applications. Our Committee approved the award of the contract to Goldie Mohr Ltd., Ottawa, Ontario under Section 19.0 Purchases Exceeding \$50,000 – RFT, subclause 19.7 of the County of Renfrew Corporate Policy GA-01 – Procurement of Goods and Services.

The K & P Recreational Management Advisory Committee reviewed the results on May 20, 2022 and support the project.

## 11. Small Local Government Enterprise License Agreement (SG-EA) Esri [Strategic Plan Goal No. 4]

Since 1998, the County of Renfrew GIS Division has provided support to all departments, municipalities and the public with mapping/GIS mapping products and data analysis. GIS staff maintains all the corporate GIS data (property parcels, road centerline, etc.) and ensures that provincial, federal and agency datasets are current. In 2002, the County transitioned to using Esri mapping software with single use licenses as a model for staff use.

Currently, the County of Renfrew has 15 Esri licenses along with 110 online users for the corporate GIS mapping site with an annual cost of \$39,420 (including approximately \$800 in Esri credits). Six local municipalities and the Algonquins of Pikwakanagan also have individual Esri licenses with an annual cost of \$13,865. Total annual Esri costs, not including the costs for VertiGIS hosting of the County's GIS web application, for the County of Renfrew and local municipalities is \$53,285.

The SG-EA will provide unlimited access to the entire Esri mapping products for County and local municipal staff for a fee of \$67,600 in 2022, \$68,990 in 2023 and \$70,410 in 2024. Currently, the County and local municipalities, and the Algonquins of Pikwakanagan, spend over \$53,285 annually for 27 individual Esri licenses and 137 online licenses.

Our Committee approved that the County of Renfrew enter into a three year contract with Esri for the Small Local Government Enterprise License Agreement with the three year costs to be taken from the Municipal Modernization Program (Intake 2 and Intake 3) and County funds as allocated at the May 25, 2022 Council meeting on the projects identified by the Perry Group Consulting Ltd. and recommended by the Senior Leadership Team.

Staff have also been requested to advise the local municipalities of this contract and to request confirmation that they are willing to enter into an agreement with Esri to participate in the Small Local Government Enterprise License Agreement under the County of Renfrew's umbrella license.

#### 12. Planning Division Activity Tracker [Strategic Plan Goal No. 2]

Attached as Appendix III is a summary of the Planning Activities for January to May 2022.

During this period, the Planning Division opened 112 new severance applications and finalized approval of 65 applications. In 2021, the County received a total of 200 applications and approvals for 117 applications.

The County has received 21 zoning by-law amendment applications on behalf of local municipalities, which is on pace with the 42 applications received last year. The County has prepared and is working with three municipalities on new comprehensive zoning by-laws. In addition, the County is working on preparing zoning amendments for local municipalities to update by-laws to allow secondary dwellings so that property owners across the County will be in a position to participate in the Secondary Suite Program.

To date, the County has draft approved one subdivision, and provided final approval to three subdivisions. While the County has not received any subdivision applications to date, the County has responded to many general inquiries and several future subdivision applications are undergoing "advance peer review" ahead of submission. The spring is usually the time when the fieldwork is completed, keeping consultants busy and out of the office. Over the summer/fall, reports are completed, and staff anticipate the submission of applications by late fall/early winter.

There have been two appeals to the Ontario Land Tribunal this year: one related to a local Official Plan Amendment in the Town of Arnprior, and the other a right-of-way application in the Township of Greater Madawaska.

Before the COVID-19 pandemic, the County on average would process between 150-175 general inquiries. In 2021 that number increased to 254, and to date we have received 114 in 2022. We have provided 102 responses this year and there are 62 requests for pre-consultation outstanding.

## 13. Bill 109 "Ontario's More Homes for Everyone Act, 2022" Working Group [Strategic Plan Goal No. 3]

An amendment to the County of Renfrew Official Plan will be required for the implementation of the newly legislated Bill 109. The amendment will need to update the Official Plan regarding complete application requirements for Site Plans, Plans of Subdivision, and applications to amend Official Plans and Zoning By-laws. Our Committee directed County Planning Division staff to reach out to the 12 local municipalities and coordinate a working group from some of the local municipalities that utilize the County Official Plan with the objective to draft and prepare an Official Plan Amendment for the implementation of Bill 109 "Ontario's More Homes for Everyone Act, 2022." The Official Plan Amendment is required to be in place by January 1, 2023. Staff will also include the municipalities who have their own official plans as part of their working group discussions.

#### **RESOLUTIONS**

## 14. Emergency Structural Repairs – 63 Russell Street, Arnprior [Strategic Plan Goal No. 2]

#### **RESOLUTION NO. DP-CC-22-06-67**

Moved by Chair

Seconded by Committee

THAT County Council approve the emergency structural repairs as specified by NMR-Engineering at 63 Russell Street, Arnprior, Ontario in the amount of \$210,300; AND FURTHER THAT the costs to complete these emergency structural repairs be funded from the Renfrew County Housing Corporation Building Reserve Fund.

#### Background

The County of Renfrew contacted NMR-Engineering to undertake an emergency structural inspection and condition assessment for localized deficiencies of roof balconies at 63 Russell Street, Arnprior, Ontario.

On April 14, 2022 a site visit and visual inspection was conducted of the defected balconies by a professional engineer and the initial finding was an actual visible balcony deflection. The structural engineer recommended

emergency shoring and safety mitigation measures (including restricted access to balconies) to be undertaken before a further detailed inspection.

On April 20, 2022 a subsequent site visit was conducted along with the contractor Demers Masonry, to remove the gravel, insulation and waterproofing of the balcony joint with roof slab. By accessing the top deck concrete, a wide crack on the top roof cantilever was observed. The Crack Depth Measuring machine indicated a 91mm to 104mm deep crack. NMR-Engineering recommended applying the same precautions to all the other roof balconies due to the same nature and age of construction. The Contractor responded immediately and implemented all safety precautions as per the structural engineer's recommendation. The structural engineer has since provided a detailed structural report that defines the mitigation measures. As of June 8, 2022, each balcony is temporarily supported by shoring from the ground to the cantilevered roof. The tenants do not have access to their balconies, and the grounds in the immediate vicinity are isolated by construction fencing.

#### **Financial Implications**

The estimated cost to finish the repairs as per the structural engineer report is approximately \$150,000. The quote received from Demers Masonry of \$150,900 is a fair market. A breakdown of the estimate as per invoices and quotations is as follows:

#### NMR Engineering:

Emergency response (completed to date)	\$6,400
Estimated cost for inspection on remaining work	\$6,400
Total Engineering Services	\$12,800
Demers Masonry:	
Emergency response (completed to date)	\$46,600
Estimated cost to complete the work	\$150,900
Total Construction Costs	
Total Cost for the Emergency Structural Repairs	\$210,300
All amounts exclude applicable taxes	

The cost of this emergency work is not covered under any budget. Due to the immediate response by the structural engineer and contractor and the urgent attention to complete the permanent repairs as quickly as possible, staff is seeking \$210,300 from the Building Reserve Fund.

The Renfrew County Housing Corporation Board approved this recommendation at their meeting on June 15, 2022 and the Community Services Committee has been advised.

All of which is respectfully submitted.

# County of Renfrew Intervention, Friday, June 3, 2022 Canadian Nuclear Safety Commission (CNSC) In Support of:

Canadian Nuclear Laboratories (CNL)

Application to Amend the

Chalk River Laboratories (CRL) Site Licence to Authorize Construction

Of a Near Surface Disposal Facility (NSDF)

#### **Good Morning President Velshi and Commissioners**

#### The Intervener

I am County Councilor Peter Emon, speaking on behalf of Warden Debbie Robinson, and representing County of Renfrew Council and our seventeen municipalities with a population of 107,855. The County of Renfrew has submitted a written intervention and my presence here is to support that intervention. We represent the majority of residents living in close proximity to Chalk River Laboratories.

#### **Introductory Expression of Support**

We support the application by Canadian Nuclear Laboratories for a site licence amendment to authorize the construction of a Near Surface Disposal Facility. We recognize that an appropriate disposal facility is required to responsibly manage the low-level nuclear legacy materials present on the CRL site. We also understand and accept that the most efficient, safe and long-term management of low level nuclear waste materials from CRL operations is to dispose of it at the large, secure and expertly staffed Chalk River Laboratories, a site owned by the Government of Canada.

We are in agreement with CNL that the NSDF solution is the correct solution for the management of these materials. We recognize the professional, scientific, design, planning, geo-technical and engineering work undertaken by Canadian Nuclear Laboratories, overseen by Atomic Energy of Canada, Limited, that has resulted in the plan for the NSDF and the safe and secure long-term disposal of low-level nuclear wastes.

#### Why Renfrew County Council Supports the NSDF Solution

The NSDF is essential to manage the low-level waste materials being collected from across the Chalk River Laboratories site, resulting from the site cleanup of legacy waste, and from the on-going site renewal program of removing redundant and aged buildings.

We want and expect CRL and AECL to maintain the Chalk River Laboratories and the environment safely and securely. We want the site renewal projects to proceed. We want the waste materials to be stored safely and securely and we want this to happen as soon as possible. We have heard from all quarters a desire for environmental protection, and we share that desire. That is why we desire a safe and secure disposal solution to be deployed now.

Why would we hesitate any longer?

Over 2020 and 2021, the County of Renfrew engaged MDB Insights, Metro Economics and Independent Environmental Consultants (IEC) to study the Social, Economic and Environmental Impact of Chalk River Laboratories and Canadian Nuclear Laboratories. The analysis clearly demonstrated the critical role of Chalk River Laboratories in supporting the people and economy of Renfrew County. Canadian Nuclear Laboratories employs approximately 2,700 employees at Chalk River Laboratories paying \$380 million in salaries and benefits annually. The economic impact of those salary dollars and operational expenses are the foundation of our county economy, especially in the northwestern sector, where we are meeting today.

This nuclear legacy remediation work, site renewal and development of new laboratories requires that an appropriate disposal facility be available to accommodate the nuclear waste materials resulting from this important work. This is the reason and the need for a NSDF.

It is not all about the money and financial benefits the people and businesses of Renfrew County receive from CRL operations, though that is vitally important and significant to the future and sustainability of our communities. It's about the continuation of the world-leading scientific research and development that has been carried out at CRL for 77 years. This is Canada's single largest science and technology centre. The work that has been done there, and is planned for the

future, enables Canada to address scientific and technical challenges in many aspects of life and commerce, far beyond solely nuclear.

That legacy of R&D, including two Nobel Prizes, must be built upon and continue for future generations. We are proud of that legacy, proud to host such important work here in Renfrew County. We wish it to continue, expand, and diversify.

The site renewal and NSDF project will support laboratory operations and employment for future young Canadian Science, Technology, Engineering, and Mathematics (STEM) students, continuing that unique and vital support to higher education.

The NSDF project will enable the continuation of the long heritage of the peaceful applications of nuclear science carried out here, contributing to industry, security, human health, and non-greenhouse gas emitting electricity production.

#### Why Chalk River Laboratories for the NSDF

CRL is one of the very few large government-owned and licensed nuclear research, science, technology and development sites in Canada. While there is a private contractor managing operations at CRL, this site, the nuclear operations there and the long-term responsibility and liability resides, and always will reside, with the Government of Canada and AECL on behalf of the people of Canada.

There is no more ideal location in Canada for long-term management of this type of low-level nuclear waste than CRL. Of importance to recognize, CRL already contains the vast majority of the material that is proposed to be stored in the NSDF. Common sense and best practices would dictate, and we would prefer, to have this material remain in place rather than having it transported on our public roads and through our communities.

The government of Canada will own the CRL site in perpetuity and will hold the liability. The employees of CNL are local residents, and they are a local level of knowledge and oversight of all operations at CRL. They live, work, recreate and raise their families here. CNSC and AECL employees and boards have the responsibility to review, approve and monitor all activities at CRL.

The large CRL site and entire watershed downstream on the Ottawa River will benefit from the environmental remediation underway to collect low-level nuclear waste for permanent disposal in the secure, monitored and managed NSDF, equipped with a leachate management and processing facility. This will directly ensure much greater protection for the Ottawa River and all surface and ground water on the site. Government oversight will continue over the long-term and at every step of the process.

The NSDF concept is not new or untried. We have already learned this week about the excellent performance of the NSDF at Port Hope on Lake Ontario, just east of Toronto. Many of us travel past that NSDF, which abuts Highway 401, when we travel to the GTA

This national nuclear legacy must be properly managed and stored in a highly engineered facility for the long-term. Representing the residents of Renfrew County, many of whom are very close neighbours to CRL, and many of them employees at CRL, county councilors are quite aware of the activities at CRL. County Council has been kept well informed of the activities at CRL by CNL. Many of our members have visited the site over the years and have received delegations from senior leadership of AECL, and more recently, of Canadian Nuclear Laboratories (CNL). The regular, comprehensive and open public communications from AECL and now CNL have been informative and helpful to all members of the public across the county, and beyond.

CNL has also been a delegation to the Eastern Ontario Wardens Caucus, with the senior leadership team meeting with elected leaders from the broader region.

This project will enable us to build on the 77 years of world leading scientific R&D conducted at CRL, rather than risk losing it all. In addition, the broad range of scientific activity presently underway and proposed for the future is not just serving the nuclear industry. Canada's best and brightest in the fields of chemistry, biology, physics, radiopharmaceutical medicine and cancer therapy, metallurgy, advanced materials, mathematics, computer modelling and simulation, environmental science and many other disciplines conduct R&D at CRL supporting many institutions, universities, businesses and industrial sectors.

The new hydrogen laboratory is focused on applications of hydrogen as a clean energy source. The Small Modular Reactor research will address the increasing

demands for electricity world-wide. SMRs will contribute to the reduction of fossil fuel use in Canada's north, and at resource extraction and processing sites, and will support electrical grids and the electrification of automobiles.

Energy security, greenhouse gas emission reductions, and affordable energy are of interest of all our residents. Energy security through electricity delivery reliability and ability to withstand weather related threats is very relevant, especially in the aftermath of the storm-related damage to the electrical grid of May 21 in central and eastern Ontario. We are proud of the R&D carried out here that created the CANDU reactor technology, and the on-going support CRL provides to the power generation sector.

SMRs will play a key role in the future of smart grids and distributed power generation capability and infrastructure, helping to reduce power interruptions and reducing the need for costly investment in transmission line construction. Nuclear energy already provides over 60% of our electricity in Ontario. We see the need and the opportunity for nuclear power and Small Modular Reactors to continue to be developed and deployed. Chalk River Laboratories and our county residents working there should be and must be part of Canada's energy future.

We want Renfrew County to be part of this scientific and clean energy future. Moreover, Canada should continue to be a world-leading nation of science, technology and efficient use of resources- contributing our skills and technologies to assist other nations.

All this valuable and vitally important scientific work requires a successful site clean-up and renewal, which requires a low-level waste disposal solution. The NSDF

#### Conclusion

The County of Renfrew has been the willing host and partner to Chalk River Laboratories for 77 years and three generations. We have benefited economically and socially from the laboratory operations and from the thousands of employees who have lived and worked here. The presence of all these employees has supported our communities, organizations, clubs, schools, health facilities and small businesses. It has made our region richer in many ways and we are proud to be the home of this world-class science and technology facility.

We have a responsibility to our residents and to all Canadians, to assume a share of responsibility for the work conducted at CRL. We assume the responsibility to host the disposal of the materials created here. We cannot in good faith hand off a waste material to another community when we have a safe and viable solution here, in situ, at CRL.

CRL is part of our county and community. A solution to the safe storage and disposal of low-level materials created on the site must be found and implemented.

The NSDF is the solution that our Canadian and global experts have developed and proposed.

The nuclear regulatory regime in Canada is recognized globally as one of the most rigorous, comprehensive and safety-focused, and we are proud of this. All Canadians rely on and trust government regulators to keep our aviation, shipping, railway and food systems safe and secure. We trust and rely on the CNSC to rationally and scientifically evaluate this application for a site license amendment to authorize the construction of a Near Surface Disposal System at CRL.

At this stage of this 7-year process, we understand that CNSC technical staff have completed their final evaluation of the NSDF project proposal and that it is acceptable and represents the best solution to the low-level waste disposal challenge at CRL. This week we have heard nothing new, or more informative or helpful that would improve upon this project design and implementation. We have heard nothing that would suggest a viable alternative

We urge the CNSC to approve the amendment and allow the construction of the NSDF to begin as soon as feasible. You just heard the Town of Deep River comment on their independent evaluation of the NSDF project, and the high level of engagement and due diligence of CNL responding to their questions and comments.

This process has been long, exhaustive and thorough, and it is time to move forward. This is a proposal to create a highly engineered disposal facility to receive low-level nuclear waste. We have low-level nuclear waste accumulated at CRL. Let's dispose of this material properly, as soon as possible, to mitigate any potential for environmental contamination.

#### INDEPENDENT AUDITORS' REPORT

To the Members of the Board of Directors of Renfrew County Housing Corporation

#### Opinion

We have audited the financial statements of Renfrew County Housing Corporation (the Corporation), which comprise the statement of financial position as at December 31, 2021, and the statements of operations and accumulated surplus, change in net financial assets and cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Renfrew County Housing Corporation as at December 31, 2021, and the results of its operations, change in net financial assets and its cash flows for the year then ended in accordance with Canadian public sector accounting standards.

#### **Basis for Opinion**

We conducted our audit in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Corporation in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with Canadian public sector accounting standards and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Corporation's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Corporation or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Corporation's financial reporting process.

#### Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit.

#### We also:

- Identify and assess the risks of material misstatement of the financial statements, whether
  due to fraud or error, design and perform audit procedures responsive to those risks, and
  obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion.
  The risk of not detecting a material misstatement resulting from fraud is higher than for one
  resulting from error, as fraud may involve collusion, forgery, intentional omissions,
  misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit
  procedures that are appropriate in the circumstances, but not for the purpose of
  expressing an opinion on the effectiveness of the Corporation's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Corporation's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Corporation to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Notes to Financial Statements

Year ended December 31, 2021

Renfrew County Housing Corporation was incorporated on December 14, 2000 under the Ontario Business Corporations Act. The Corporation administers social housing units in the County of Renfrew. These financial statements present the financial position and results of operation of Renfrew County Housing Corporation, which is exempt from income taxes, provided certain requirements of the Income Tax Act are met.

#### 1. Significant accounting policies:

These financial statements have been prepared by management in accordance with Canadian public sector accounting standards established by the Public Sector Accounting Board of the Chartered Professional Accountants of Canada. Significant accounting policies adopted by Renfrew County Housing Corporation are as follows:

#### (a) Basis of accounting:

Renfrew County Housing Corporation follows the accrual method of accounting for revenue and expenses. Revenues are normally recognized in the year in which they are earned and measurable. Expenses are recognized as they are incurred and measurable as a result of receipt of goods or services and/or the creation of a legal obligation to pay.

#### (b) Funding arrangements:

Renfrew County Housing Corporation's rent geared to income program is funded primarily by the Corporation of the County of Renfrew as a Consolidated Municipal Service Manager (the "Service Manager"), in accordance with arrangements established by the Ministry of Municipal Affairs and Housing and the Corporation of the County of Renfrew. These financial statements reflect agreed arrangements approved by the Corporation of the County of Renfrew with respect to the year ended December 31, 2021.

#### (c) Rental support - Province of Ontario:

The rent geared to income program operation subsidy is recognized based on the approved fiscal allocation by the Service Manager, and adjusted for estimated recoveries based on actual expenses incurred during the year. Subsidies may be adjusted by the Service Manager based on an annual reconciliation performed subsequent to year end. Any further adjustments will be recorded in the year of Service Manager approval.

#### (d) Revenue recognition:

Property rental income, contributions and other revenues are recognized as revenue on an accrual basis. Housing property rental revenue is recognized over the rental period once the tenant commences occupancy, rent is due and collection is assured.

#### (e) Use of estimates:

The preparation of financial statements in conformity with Canadian public sector accounting standards requires management to make estimates and assumptions which affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues

Notes to Financial Statements, continued

Year ended December 31, 2021

#### 1. Significant accounting policies (continued):

and expenditures for the year. These estimates and assumptions, including such areas as employee benefits and amortization rates of tangible capital assets, are based on management's best information and judgment and may differ significantly based on actual results.

#### (f) Non-financial assets:

Non-financial assets are not available to discharge existing liabilities and are held for use in the provision of services. They have useful lives extending beyond the current year and are not intended for sale in the ordinary course of operations.

#### (i) Tangible capital assets:

Tangible capital assets are recorded at cost, which includes all amounts that are directly attributable to acquisition, construction, development or betterment of the asset. The cost, less residual value, of the tangible capital assets is amortized on a straight-line basis over their estimated useful lives as follows:

	Estimated useful life
Land improvements	20 to 25 years
Buildings	25 to 60 years
Machinery and equipment	5 to 25 years
Vehicles	4 to 20 years

Leasehold improvements are amortized on a straight-line basis over the current lease term plus one subsequent lease term.

Annual amortization is charged in the year of acquisition and in the year of disposal. Assets under construction are not amortized until the asset is available for productive use.

#### (ii) Contribution of tangible capital assets:

Tangible capital assets received as contributions are recorded at their fair value at the date of receipt, and that fair value is also recorded as revenue. Similarly, transfers of assets to third parties are recorded as an expense equal to the net book value of the asset as of the date of the transfer.

Notes to Financial Statements, continued

Year ended December 31, 2021

#### 1. Significant accounting policies (continued):

#### (g) Deferred revenue:

Deferred revenue represents rents and user charges which have been collected but for which the related services have yet to be performed. These amounts will be recognized as revenues in the fiscal year the services are performed.

#### (h) Cash:

The Renfrew County Housing Corporation considers cash to be highly liquid investments with original maturities of three months or less.

#### (i) Employee benefit plan:

The contributions to a multi-employer, defined benefit pension plan are expensed when contributions are due.

The costs of post-employment benefits, other than those included in Note 4, are recognized when the event that obligates the Corporation occurs.

#### (j) Liabilities for contaminated sites:

The liability for remediation of contaminated sites will be recognized when an environmental standard exists, the contamination exceeds the environmental standard, the Corporation is directly responsible for the remediation of the contaminated site, and a reasonable estimate of the amount can be made.

#### (k) Financial instruments:

Financial instruments are recorded at fair value on initial recognition. Derivative instruments and equity instruments that are quoted in an active market are reported at fair value. All other financial instruments are subsequently recorded at cost or amortized cost unless management has elected to carry the instruments at fair value.

All financial assets are assessed for impairment on an annual basis. When a decline is determined to be other than temporary, the amount of the loss is reported in the statement of operations.

Notes to Financial Statements, continued

Year ended December 31, 2021

#### 1. Significant accounting policies (continued):

#### (I) Government transfers:

Government transfers are the transfer of monetary assets or tangible capital assets from other levels of government that are not the result of an exchange transaction and for which there is no expectation of repayment or direct financial return to the transferor in the future.

The Corporation receives government transfers from provincial and municipal governments to fund operating and capital expenditures. These transfers to the Corporation are recognized as revenues when the transfers are authorized and all of the eligibility criteria, if any, have been met, except when and to the extent that the transfer gives rise to an obligation that meets the definition of a liability for the recipient. Prior to that time, any amounts received, along with restricted interest thereon are recorded as deferred revenue.

#### (m) Restructuring:

PS 3430 defines a restructuring transaction and establishes standards for recognizing and measuring assets and liabilities transferred in a restructuring transaction. The main features of PS 3430 are as follows:

- A restructuring transaction is a transfer of an integrated set of assets and/or liabilities, together with related program or operating responsibilities without consideration based primarily on the fair value of the individual assets and individual liabilities transferred;
- The net effect of a restructuring transaction should be presented as a separate revenue or an expense item in the statement of operations;
- A recipient should recognize individual assets and liabilities received in a restructuring transaction at their carrying amount with applicable adjustments at the restructuring date;
- A transferor and a recipient should not restate their financial position or results of operations; and
- A transferor and a recipient should disclose sufficient information to enable users to assess the nature and financial effects of a restructuring transaction on their financial position and operations.

#### 7. Pension agreement:

The Renfrew County Housing Corporation, on behalf of its eligible employees, is a participant in the Ontario Municipal Employees Retirement System (OMERS). OMERS is a defined benefit pension plan, fully funded by equal contributions from participating employers and employees, and by the investment earnings of the OMERS Fund. OMERS pensions are calculated using a defined benefit formula, taking into account length of service and average annual wage that is designed to integrate with the pension payable from the Canada Pension Plan.

As OMERS is a multi-employer pension plan, the Renfrew County Housing Corporation does not recognize any share of the pension plan deficit of \$69 million (2020 – 7.655 billion) based on the total fair market value of the plan's assets, as this is a joint responsibility of all Ontario municipalities and their employees.

The amount contributed to OMERS for 2021 was \$137,521 (2020 - \$148,955) for current service and is included as an expenditure on the statement of operations. At December 31, 2021 there is no liability for past service under this agreement.

The nature of the Corporation's activities is such that there may be litigation pending or in prospect at any time. In the opinion of management, the aggregate amount of any potential liability is not expected to have a material effect on the corporation's financial position.

#### 11. Financial instruments:

#### (a) Fair value:

The carrying values of cash, investments, accounts receivable, accounts payable and accrued liabilities, accrued interest on long-term debt and post employment benefits approximate the fair value due to their short-term nature.

The carrying value of the long-term debt is considered to be its fair value because the interest rate approximates the market rate that would be available to the corporation for the same or similar instruments at December 31, 2021.

#### (b) Interest rate risk:

The long-term debt bears interest at a fixed interest rate. Consequently, the long-term debt risk exposure is minimal.

#### (c) Credit risk:

The corporation provides credit to its tenants during the normal course of its operations. The corporation determines on a continuing basis, the probable losses and records a provision for losses based upon the stated realizable value. Concentration of credit risk with respect to accounts receivable is limited due to the number of tenants. The corporation does not run any significant risk with respect to a single tenant.

It is management's opinion that the Corporation is not exposed to significant interest or credit risks arising from its financial instruments.

#### 12. Budget figures:

The Renfrew County Housing Corporation prepares operating and capital budgets annually. The budget figures are reflected in the statement of operations and accumulated surplus and have not been audited. They are provided for information purposes only.

The Renfrew County Housing Corporation (RCHC) and Opeongo Non-Profit Community Residential Development Inc. (Opeongo) underwent a restructuring transaction on December 31, 2020. Opeongo ceased to provide low-income housing under the Housing Services Act, 2011, and transferred all assets, liabilities, and tenants to RCHC. As a result of the restructuring RCHC has recognized on its Statement of Financial Position at December 31, 2020 a receivable from Opeongo of \$975,433; land with a carrying value of \$110,357; buildings with a carrying value of \$317,880; accrued liabilities of \$11,000; and long-term debt of \$424,863.

Following is a reconciliation of the assets and liabilities transferred on December 31, 2020 that resulted in the restructuring gain of \$790,657 on the Statement of Operations and Accumulated Surplus:

Accounts receivable from Opeongo being cash and investments Tangible capital assets Accounts payable and accrued liabilities Long-term debt Payable to Renfrew County Housing Corporation	\$ 975,433 428,237 (11,000) (424,863) (177,150)
Restructuring gain	\$ 790,657

The County of Renfrew is the sole shareholder of RCHC and the service manager designated for both Opeongo and RCHC under the Housing Services Act 2011.

#### 14. Uncertainty due to COVID-19:

In March 2020 the World Health Organization declared a global pandemic due to the novel coronavirus (COVID-19). The situation is constantly evolving, and the measures put in place are having multiple impacts on local, provincial, national and global economies. The overall effect of these events on the Corporation and its operations is too uncertain to be estimated at this time. The impacts will be accounted for when they are known and may be assessed.

# THEREFORE THE PARTIES agree as follows:

#### 1. Definition
