OPERATIONS COMMITTEE

Tuesday, October 10, 2023

A meeting of the Operations Committee was held on Tuesday, October 10, 2023, at 1:00 p.m., at the Town of Deep River Municipal Office, 100 Deep River Road, Deep River, Ontario.

| Present were: | Chair Glenn Doncaster Warden Peter Emon Councillor Daniel Lynch Councillor Mark MacKenzie Councillor Keith Watt |
|----------------|---|
| Regrets: | Vice-Chair David Bennett Councillor Mark Willmer |
| Staff Present: | Craig Kelley, Chief Administrative Officer/Clerk Lee Perkins, Director of Public Works and Engineering Jason Davis, Director of Development and Property Richard Bolduc, Manager of Operations Taylor Hanrath, Manager of Capital Works Gwen Dombroski, Deputy Clerk Tina Peplinskie, Media Relations and Social Media Coordinator Evelyn VanStarkenburg, Administrative Assistant |

Chair Doncaster called the meeting to order at 1:23 p.m. The land acknowledgement identifying that the meeting was being held on the traditional territory of the Algonquin People was recited. The roll was called, and no pecuniary interests were disclosed.

Chair Doncaster, on behalf of the Deep River Council and Municipal staff, welcomed everyone to the Town of Deep River Municipal Office.

RESOLUTION NO. OP-C-23-10-111

Moved by Councillor Watt Seconded by Warden Emon THAT the minutes of the September 12, 2023, meeting be approved. CARRIED.

Public Works and Engineering

The Director of Public Works and Engineering overviewed the Public Works and Engineering Department Report, which is attached as Appendix A.

2

Councillor MacKenzie advised that the Township of McNab/Braeside has been in contact with the Ministry of Transportation to initiate discussions to have the section of roads from the Quebec Provincial Highway 301 to the Ontario Provincial Highway 17, which would include Campbell Drive, Stevenson Drive, River Road, and Chenaux Road to the Quebec Bridge, considered for the Connecting Links Program, a funding program that helps municipalities pay for the construction and repair costs for municipal roads and bridges that connect two ends of a provincial highway through a community or to a border crossing.

RESOLUTION NO. OP-C-23-10-112

Moved by Warden Emon

Seconded by Councillor MacKenzie

THAT the Operations Committee recommends to County Council that a letter be sent under the Warden's signature to the Honourable Prabmeet Singh Sarkaria, Minister of Transportation, in support of the resolutions from Cramahe Township and the City of Cambridge in regards to amending s.205.1 of the Highway Traffic Act to allow Automated Speed Enforcement (ASE) systems permanently or temporarily on any roadway under the jurisdiction of the municipality. CARRIED.

RESOLUTION NO. OP-C-23-10-113

Moved by Councillor Watt

Seconded by Councillor Lynch

THAT the Operations Committee recommends to County Council that a letter be sent under the Warden's signature to the Honourable Prabmeet Singh Sarkaria, Minister of Transportation, requesting updated traffic counts for specific sections of Highway 17, including the current Highway 417, Arnprior to Renfrew Twinning, Storyland Road to Greenwood Road, Meath Hill to Deep River, and west of Deep River. CARRIED.

RESOLUTION NO. OP-C-23-10-114

Moved by Warden Emon

Seconded by Councillor Lynch

THAT the Operations Committee recommends that County Council reassign the sum of \$60,000 originally designated in the 2023 budget for architectural design and review of the Southwest Patrol and White Water Road Patrol buildings towards the purchase of new pods/workstations for the Public Works and Engineering Department office located at the County Administration Building in Pembroke at a cost of \$17,802.47. CARRIED.

RESOLUTION NO. OP-C-23-10-115

Moved by Councillor MacKenzie

Seconded by Councillor Watt

THAT the Operations Committee recommends that County Council approve delegation requests at the 2024 Rural Ontario Municipal Association (ROMA) Annual Conference with the Minister of Infrastructure to discuss implementation of a consistent Provincial mandated Pavement Condition Index (PCI) process and with the Minister of Transportation to discuss additional funding opportunities with regards to an interim solution for Highway 17/417 widening and traffic calming beyond Renfrew; AND FURTHER THAT the Chair of the Standing Committee, along with the Warden, be designated to attend the delegations. CARRIED.

RESOLUTION NO. OP-C-23-10-116

Moved by Councillor Lynch

Seconded by Councillor MacKenzie

THAT the Operations Committee recommends that County Council adopt a By-law to authorize the designation of a Community Safety Zone (CSZ) along Queen Street (County Road 512) between 87 Queen Street and Boland Street, Township of Killaloe, Hagarty and Richards. CARRIED.

Capital Works Division

The Manager of Capital Works overviewed the Capital Works Division Report, which is part of the Public Works and Engineering Department Report.

RESOLUTION NO. OP-C-23-10-117

Moved by Warden Emon

Seconded by Councillor MacKenzie

THAT the Operations Committee recommends to County Council that the posted speed limit remain unchanged at this time for County Road 2 (White Lake Road) between Robertson Line and Green Meadow Road. CARRIED.

RESOLUTION NO. OP-C-23-10-118

Moved by Councillor Watt

Seconded by Councillor MacKenzie

THAT the Operations Committee recommends to County Council that the assumption of Lynch Road Culvert, on Lynch Road, 0.1km west of Dragonfly Way, in the Township of Admaston/ Bromley be approved; AND FURTHER THAT the costs for design and construction of Lynch Road Culvert be shared equally between the County of Renfrew and the Township of Admaston/ Bromley; AND FURTHER THAT staff be directed to complete the design for the replacement of Lynch Road Culvert and plan for replacement in 2024. CARRIED.

Operations Division

The Manager of Operations overviewed the Operations Division Report, which is part of the Public Works and Engineering Department Report.

RESOLUTION NO. OP-C-23-10-119

Moved by Councillor MacKenzie Seconded by Councillor Lynch THAT the Public Works and Engineering Department Report, which is attached as Appendix A be approved. CARRIED.

4

RESOLUTION NO. OP-C-23-10-120

Moved by Councillor Watt Seconded by Councillor MacKenzie THAT this meeting adjourn and the next regular meeting be held on November 14, 2023. Time: 2:14 p.m. CARRIED.

OPERATIONS COMMITTEE

Wednesday, October 25, 2023

A special meeting of the Operations Committee was held on Wednesday, October 25, 2023, at 9:40 a.m., at the County of Renfrew Administration Office, 9 International Drive, Pembroke, Ontario.

| Present were: | Warden Peter Emon Vice-Chair David Bennett (virtual) Councillor Daniel Lynch Councillor Mark MacKenzie Councillor Keith Watt Councillor Mark Willmer (virtual) |
|----------------|---|
| Regrets: | Chair Glenn Doncaster |
| And Others: | Councillor Anne Giardini Councillor Debbi Grills Councillor David Mayville Councillor James Brose |
| Staff Present: | Craig Kelley, Chief Administrative Officer/Clerk Lee Perkins, Director of Public Works and Engineering Michael Blackmore, Director of Long-Term Care Jason Davis, Director of Development and Property Jeffrey Foss, Director of Corporate Services Laura LePine, Director of Community Services Gwen Dombroski, Deputy Clerk Tina Peplinskie, Media Relations and Social Media Coordinator Evelyn VanStarkenburg, Administrative Assistant |

The Chief Administrative Officer/Clerk called the meeting to order at 9:40 a.m. He advised that pursuant to By-law 85-10, a By-law to Govern the Proceedings of the Council and Committees of the County of Renfrew, section 74(g), which states "The Committee Chair shall preside, or alternatively the Vice-Chair upon request of the Chair. In the physical absence of the

Committee Chair, the Vice-Chair shall preside, or in the physical absence of both, such other Member of the Committee as may be appointed by the concurring vote of a majority of the Members of the Committee present," Committee is required to appoint a Chair to preside over the meeting.

2

RESOLUTION NO. OP-C-23-10-121

Moved by Warden Emon

Seconded by Councillor Lynch

THAT due to the absence of the Chair and the physical absence of the Vice-Chair, Councillor Watt be appointed to preside over the Operations Committee meeting. CARRIED.

The land acknowledgement identifying that the meeting was being held on the traditional territory of the Algonquin People was recited. The roll was called, and no pecuniary interests were disclosed.

Operations Division

The Director of Public Works and Engineering overviewed the Operations Division Report, which is attached as Appendix A.

RESOLUTION NO. OP-C-23-10-122

Moved by Warden Emon

Seconded by Councillor MacKenzie

THAT the Operations Committee recommends that County Council approve the bid submitted by Gincor, Mattawa, Ontario, for the acquisition of three tandem truck and plow units, in the amount of \$1,254,975, plus applicable taxes; AND FURTHER THAT County Council adopt a Bylaw to Authorize Execution of the Contract; AND FURTHER THAT County Council reassign the sum of capital funds in the amount of \$175,593 from the offset roller and the road shouldering machine to the purchase of the three tandem plow truck and plow units. CARRIED.

RESOLUTION NO. OP-C-23-10-123

Moved by Councillor Lynch Seconded by Councillor MacKenzie THAT the Public Works and Engineering Department Report, which is attached as Appendix A be approved. CARRIED.

RESOLUTION NO. OP-C-23-10-124

Moved by Warden Emon Seconded by Councillor MacKenzie THAT this meeting adjourn and the next regular meeting be held on November 14, 2023. Time: 9:47 a.m. CARRIED.

COUNTY OF RENFREW

PUBLIC WORKS AND ENGINEERING DEPARTMENT REPORT

TO: Operations Committee

FROM: Lee Perkins, C.E.T., MBA, Director of Public Works and Engineering

DATE: November 14, 2023

SUBJECT: Department Report

INFORMATION

1. Treasurer's Report

Attached as Appendix I is a copy of the September 2023 Treasurer's Report for the Public Works and Engineering Department.

2. Monthly Project Status Report

Attached as Appendix II is the Monthly Project Status Report. Additional project specific information is provided in the Divisional reports.

3. Capital Program Variance Report

Attached as Appendix III is the Capital Program Variance Report.

4. Policy PW-22 – Naming Bridges and Culverts Policy

Attached as Appendix IV is Policy PW-22 – Naming Bridges and Culverts which staff have developed. This initiative is an opportunity to honour the heritage of the area.

Staff are requesting that comments be returned to Director Lee Perkins by January 15, 2024, in order to be considered as part of the final policy to be presented to the Operations Committee and County Council in February 2024, for approval.

RESOLUTIONS

5. 2024 Budget

Recommendation: THAT the Operations Committee directs staff to bring the Business Plan for all relevant divisions under the purview of the Operations Committee to the 2024 Budget Workshop and planning meetings, including any suggested revisions or conceptual projects or areas of concentration.

Background

Engaging elected leaders in the budget process is a critical component of transparent and accountable governance. In order to foster a more inclusive and effective decisionmaking process, it is imperative to actively involve members of the standing committee. By including an interactive discussion regarding the budgetary discussions, we not only ensure that public funds are allocated in alignment with the needs and priorities of the community but also promote a sense of ownership and responsibility among elected representatives. This collaboration between executive and legislative branches can lead to more informed, well-rounded budget decisions that better serve the interests of the people. Elected leaders, as representatives of the public, offer a unique perspective on the needs and priorities of the citizens of Renfrew County. Active participation in shaping the allocation of public funds can offer insight, and possibly highlight potential pitfalls, unanticipated consequences, or areas where budgetary resources may be better utilized.

Attached as Appendix V is a compendium of 2023 highlights from this Department under the terms of reference for this Committee, along with a description of proposed areas of concentration in 2024. Committee members are encouraged to review the report and participate in a facilitated presentation during the meeting.

BY-LAWS

6. **PW-21 – Entrance Policy and Design Guidelines**

Recommendation: THAT the Operations Committee recommends that County Council adopt a By-law approving Policy PW-21 Entrance Policy and Design Guidelines; AND FURTHER THAT By-law 32-98 being a By-law to Regulate the Construction or Alteration of any Entranceways, Private Roads or Access to a County Road be rescinded.

Background

In 1998, By-law 32-98 being a By-law to Regulate the Construction or Alteration of any Entranceways, Private Roads or Access to a County Road was adopted. This By-law is no longer applicable as it includes County Roads and fees that are incorrect. Policy PW-21 Entrance Policy and Design Guidelines, attached as Appendix VI, has been in place for many years; however, is not included as part of the Corporate Policies for the Public Works and Engineering. Staff are recommending that Policy PW-21 be adopted as a Corporate Policy to replace By-law 32-98.

7. Capital Works Division

Attached as Appendix VII is the Capital Works Division Report, prepared by Taylor Hanrath, Manager of Capital Works, providing an update on activities.

8. **Operations Division**

Attached as Appendix VIII is the Operations Division Report, prepared by Richard Bolduc, Manager of Operations, providing an update on activities.

|---|-----------------------------------|--|--|--|--|--|--|--|--|
| DEPARTMENT: POLICY #: PUblic Works & Engineering PW-22 | | | | | | | | | |
| POLICY: Naming Bridges a | nd Culverts | | | | | | | | |
| DATE CREATED: REVIEW DATE: REVISION DATE: COVERAGE: PAGE #: November 2023 All County-owned 1 of 2 Bridges/Culverts Bridges/Culverts | | | | | | | | | |

POLICY STATEMENT

The County of Renfrew (County), as the upper-tier Municipality, has responsibility for all bridges/culverts located on either local Municipal roads or County roads within the boundaries of the County, and has a need to ensure that any bridge/culvert naming on a County Road is consistent with the Department's primary objective of providing and maintaining a safe road system.

BACKGROUND

The County of Renfrew, as the road authority having jurisdiction over County Roads, may make and enforce by-laws and policies pertaining to the renaming for bridges/culverts. The Municipal Act, 2001, as amended, in Section 11 permits a municipality to pass by-laws pertaining to the public assets of the Municipality for the purpose of exercising its authority under the Act, and to pass by-laws pertaining to highways.

DEFINITIONS

For the purposes of this policy the following definition shall apply:

Bridge/Culvert – A structure, or series of structures, having a cumulative span of 3.0m or greater, which provides a roadway or walkway for the passage of vehicles and pedestrians across an obstruction, gap or facility.

PROCEDURES

- 1. Proposed bridge/culvert name changes shall be forwarded, by Resolution from the lower-tier municipality where the bridge/culvert is located, to the County of Renfrew's Public Works and Engineering Department, detailing the background and potential changes.
- 2. It is absolutely essential that there be no duplication of bridge/culvert names throughout the County of Renfrew to maintain the integrity of the 9-1-1 system. To avoid bridge/culvert name duplication, all proposed new bridge/culvert names are forwarded to the County of Renfrew, Public Works and Engineering Department to be

| Corporate Policies and Procedures | | | | | | |

| DATE CREATED: REVIEW DATE: REVISION DATE: COVERAGE: November 2023 All County-owned Bridges/Culverts | | | | PAGE #: 2 of 2 | | |

checked against the County Bridge/Culvert Name Registry.

- 3. Proposed changes and supporting documentation will be brought to Operations Committee for further discussion with a recommendation to County Council.
- 4. Once approved by County Council, an "Effective Date" will be established that will provide enough time for municipal, County, and emergency services staff to implement the required database and mapping revisions.
- 5. Bridge/culvert name changes will require County staff to prepare a Public Noticeand draft schedules for the proposed Bridge/Culvert Naming By-law amendments and return these to the municipality.
- 6. As determined in the Public Notice, property owners may make written requests to be heard by County Council. It is important for written applications to be received by the Clerk prior to the advertised deadline, with no exceptions.
- 7. County Council may hold a public meeting to hear any person who has applied in writing regarding the proposed amendment to the Bridge/Culvert Naming By-law. This meeting must be held after the completion of the Public Notice period.
- 8. Following the Public Notice period and any Hearing, County Council identifies what revisions, if any, are to be made and amends the Bridge/Culvert Naming By-law accordingly. Notice of this decision must be forwarded immediately to the lower-tier municipality. It is advisable that the lower-tier Council inform affected property owners of the decision.
- 9. County staff will forward a copy of the complete By-law to the lower-tier municipality. The County of Renfrew, Sign Shop will give top priority to all signs that are required for bridge/culvert changes.

APPROVALS

The installation of new bridge/culvert signage on County bridges/culverts shall be approved by the Operations Committee of County Council and authorized by the passing of a By-law by County Council.

2024 Business Plan Public Works & Engineering

DEPARTMENT OVERVIEW

The Public Works and Engineering Department is responsible for approximately 816 km of road and 251 bridges and culverts. The Department conducts regular assessments and work to maintain our roads for your safety, in accordance with the Council adopted Asset Management Plan. The Department also has:

- 24 Traffic Signals
- Annual Capital Infrastructure Program \$29.9M (2023)
- Annual Maintenance Program \$6.6M
- 45 Staff located at 7 year-round and 2 winter only locations
- 86 Vehicles and Large Equipment Pieces
- 20 Plow Beats
- Approximately 24,000 tonnes of salt used annually (5 Yr Avg.)
- Approximately 8,000 tonnes of sand used annually (5 Yr Avg.)

Asset Management Plan

In 2014, the County completed and approved the Asset Management Plan for Core Assets. That plan assessed the state of the County's core assets (state of infrastructure for roads, culvert and bridge assets), how the County manages those core assets (life cycle strategies), how well those actions are working (service levels) and how much it will cost to maintain these core assets to provide County services (capital investment planning, forecasting, risk and funding gaps). The plan was adopted in 2014 and updated in 2017 to conform with the requirements of Ontario Regulation 588/17, Asset Management Planning for Municipal Infrastructure.

What is the difference between the County's operating budget and the County's capital budget?

- The Capital Budget identifies required capital projects and provides a planning schedule as well as a financing plan. It includes one-time construction costs for things such as road rehabilitation, traffic signal, culvert or bridge rehabilitation or replacement.
- The Operating Budget includes ongoing operating costs for services or programs such as roadside maintenance, pothole repair, bridge maintenance, pavement marking, traffic signal operation and snow removal.

Recently Completed Large Capital Projects

Standard Winter Operations

2023 ACHIEVEMENTS

In 2023, the Engineering and Public Works Department delivered \$29.9 million in Capital Projects

CAPITAL WORKS DIVISION

2023 Accomplishments:

- Total Road Capital Completed = 42.73 km (doesn't include Scratch Coat)
- Total Projected Road Capital Costs = \$23,854,022 (includes Scratch Coat)
 - Microsurface6.36 km
 - Overlay3.7 km
 - Mill and Pave.....0.5 km
 - Pulverize & Pave58 km
 - Base & Surface 13.06 km
 - Reconstruction......8.63 km
 - Intersection Realignment......0.2 km
 - Drain Replacement0.3 km
- Total Bridge Construction Completed = 3
- Total Projected Bridge Construction Costs = \$2,639,000
- Total Culvert Construction Completed = 7
- 6 by Day Labour Crew
- Total Projected Culvert Construction Costs = \$3,420,000
- Designs Commenced or Ongoing for Future Projects: **Note, length for roads is very high because many projects were pushed from 2023 into 2024 ahead of 2023 budget cycle**
 - Roads: 82.91 km total
 - · 2.55 km by Consultant
 - 80.36 km Internally
 - Bridges: 9 total, all by Consultants
 - Culverts: 15 total
 - 9 by Consultants
 - · 6 Internally
- New Electronic Permitting Software implemented

- Commenced a 2 year Transportation Master Plan
- Trails System Development
 - Total Projected Trails 'Capital' Costs = \$1,600,000
 - Existing/Open Trail Rehabilitated = 10 km
 - Trail Development/New Build = 12.3 km
 - Rehabilitated Bridges = 3
 - Newly Opened Trail = 2 km

C197 (Etmanskie Swamp Culvert) Rehabilitation

During the summer of 2023 the Day Labour Crew led by Construction Supervisor, Daryl Cybulski, completed the project above. This is the first time this type of culvert liner was used in eastern Ontario. This project was delivered on time and under budget by the group. \$1.3 million was budgeted; \$1.1 million was spent. The complexity of this install is a source of pride for the Capital Works team.

2024 Goals (pending budget approval):

- Total Roads Capital Construction Planned = 83.43 km
- Total Planned Road Capital Costs = \$29,732,582
- Total Bridges Capital Construction Planned = 7
- Total Bridges Capital Construction Costs = \$7,458,500
- Bridge Designs Planned to Commence or Ongoing = 4 (\$352,000)
- Total Culverts Capital Construction Planned = 10
- Total Culverts Capital Construction Costs: \$10,250,000. **Includes new dam on C201
- Culvert Designs Planned to Commence or Ongoing = 14 (\$680,000)
- Provide assistance to our municipal partners with design of smaller culverts

- Trail System Development And Expansion
 - Total Projected Trails 'Capital' Costs = \$1,200,000
 - Existing/Open Trail Rehabilitated
 - Trail Development/New Build
 - Rehabilitated Bridges
 - End of Year Newly Opened Trail

OPERATIONS DIVISION

2023 accomplishments:

- Roadside Maintenance
 - Mowing
 - Shoulder repairs
 - Brush Removal
- Snow and Ice Control on 816 kilometers of County Roads, in accordance to Minimum Maintenance Standards for Municipal Highways Ontario Regulation 239/02
- Trail system maintenance (brushing, tree removal and grading)
 - Total Projected Maintenance Costs for the Algonquin and K&P Trails= \$166,020
 - Structure Repairs
 - · Surface Repairs
 - · Ditching
 - Mowing
 - Weed Spraying
 - Dust Suppression (\$38,000)
 - Farm Fencing (\$39,620)
 - Legal Fees
 - Signage, Gates, Locks, etc.
 - Taxes
 - · Enforcement
- Small culvert replacements
- Fuel Inventory Management System implemented
- Canoe purchasing protocols implemented
- Fleet management

2024 CONSIDERATIONS AND OPPORTUNITIES

Key Issues

In 2024, the Public Works and Engineering Department will continue to address the ongoing challenges faced with a large rural transportation system, below are a number of consideration:

- Infrastructure Investment: Continued investment in road and bridge maintenance and improvements is crucial. Seek funding from government sources, grants to improve rural road networks, while enhancing safety.
- Winter Maintenance Technology: Explore innovative technologies for more efficient snow and ice control. This may include sensors, optimizing plow routes and minimize environmental impact.
- **Digital Connectivity:** Collaborate with telecommunications providers and government programs to improve digital infrastructure in rural areas. This will not only enhance communication but can also support smart transportation initiatives, such as real-time traffic monitoring and reporting.
- Sustainability Initiatives: Promote environmental friendly transportation options. Encourage the use of electric and hybrid vehicles, as well as sustainable transportation practices. Development of EV charging stations in rural areas within the County could lead to more supportable transportation systems for vulnerable populations. e.g. Electric autonomous vehicles moving people around the county similar to a very small scale busing system.
- **Collaboration with Partner Municipalities:** Strengthen partnerships and coordination with our partner municipalities will continue to hold a priority. Joint initiatives could prove to be a much more efficient way to improve service delivery.
- **Tourism and Economic Development:** Leverage tourism opportunities by improving transportation assets. Enhanced transportation infrastructure can boost local economies. e.g. Tour De Bonnechere attracts cyclist from all over Ontario and beyond similar to Ride the Highlands for motorcyclist, making the County of Renfrew a destination.
- Workforce Development: Invest in training and retaining skilled transportation professionals. A well trained workforce is essential for efficient operations and road maintenance.
- Data Analytics and Management: With the realignment of the Infrastructure group to the new name of Capital Works, it is anticipated to complete more work in-house for large culvert design and install. Using a data-driven approach will enable the group to report back to Council on cost savings.

GOALS (PENDING BUDGET APPROVAL)

- Electronic road patrol software
- Continue all programs as identified above
- Constantly looking for technology advancements to improve fleet or operations, e.g. hybrid vehicles, EV's, C&G heavy duty equipment and advancements in snow and ice control
- Continue Trails Maintenance

COUNTY OF RENFREW

BY-LAW NUMBER

A BY-LAW TO ESTABLISH POLICY PW-21 – ENTRANCE POLICY AND DESIGN GUIDELINES WITHIN THE JURISDICTION OF THE CORPORATION OF THE COUNTY OF RENFREW

WHEREAS Section 11(3) the Municipal Act, S.O. 2001, as amended, authorizes Council to pass bylaws regarding highways under the jurisdiction of the Corporation;

AND WHEREAS the Corporation desires to implement a Policy regarding the Renaming of County Roads within the jurisdiction of the Corporation.

NOW THEREFORE the Council of the Corporation of the County of Renfrew hereby enacts as follows:

- THAT Policy PW-21 Entrance Policy and Design Guidelines, as outlined in Schedule "I" attached to and made part of this By-law, shall form part of the Public Works and Engineering Department Policies and Procedures of the Corporation of the County of Renfrew.
- 2. THAT this By-law shall not be interpreted to contradict or violate any statute or regulation of the Province of Ontario.
- 3. THAT this By-law shall come into force and take effect immediately upon the passing thereof.
- 4. THAT By-law 32-98 be rescinded.

READ a first time this 29th day of November 2023.

READ a second time this 29th day of November 2023.

READ a third time and finally passed this 29th day of November 2023.

| | | | Roads System | |

POLICY STATEMENT

The County of Renfrew Roads System provides an extremely important function by moving people safely and rapidly over long distances throughout the County. The County Road network also significantly contributes to the economic well-being of the community by providing an essential link to markets for our manufactured products and produce. Similarly the system facilitates primary access to our recreational and tourism resources by millions of people living in our market areas.

In order to retain the integrity of the County Roads System and to foster the economic wellbeing of the County, it will be imperative to ensure that new commercial, industrial, and residential development gains appropriate access while at the same time not impeding traffic flow along these roads. The function, safety, and efficiency of roads carrying heavier volumes of traffic can be adversely affected by a significant number of individual developments accessing directly onto the roadway. Consequently, roads carrying high volumes of traffic should be protected from adjacent development. This does not necessarily mean in each case that access to all development should be restricted, but rather that access should be more tightly controlled as to location and design with a greater emphasis on the needs of the roadway. In certain situations development should be required to be serviced from a lower classification of roadway.

The County of Renfrew believes that a balanced approach is desirable. It is the objective of the County of Renfrew to:

- 1) Protect the safety of all roadway users through the orderly control of traffic movements to and from County Roads.
- 2) To encourage and foster growth and development throughout the County.
- 3) To protect the public investment in the County Road System.
- 4) To ensure that all new development has suitable and legal access.

To achieve the above objectives, the County of Renfrew has established a set of procedural guidelines. The purpose of these guidelines is to provide approval agencies such as the County Land Division Committee, as well as administrative support staff of the County, with a

comprehensive, practical guide to be utilized in making and expediting decisions respecting land severances as well as new entrances or alterations to existing entrances. In addition, the following guideline will serve to inform those interested parties as to the approach the County will be taking in dealing with all outstanding and future applications.

DEFINITIONS

Auxiliary Entrance – provides additional access to a development or farming operation.

Collector Roadway – collector roads are existing and proposed roads of two traffic lanes with a design right-of-way width of 20 to 26 metres. Collector roads are designed to collect and distribute traffic at moderate to relatively high operating speeds to and from local roads and arterial roads. Collector roads are County Roads which are so designated as per Policy PW-01 Roadway Classification and Design. Collector roads are designed to tolerate planned direct access to adjacent properties.

Commercial/Industrial/Institutional/Multiple Residential Entrance – provides access to a development where goods are manufactured or sold to the public, institutional uses, such as schools and hospitals, and includes residential facilities of four or more units such as apartments and townhouse developments having common parking area outside the County right-of-way.

Field Entrance – provides access to agricultural fields.

Farm Entrance – provides access to farm buildings and agricultural lands.

Functional Classification – the categorization of County Roads by their purpose within the road system. The volume of traffic using the road is usually an indication of the roads function.

Major Arterial – major arterial roads are existing and proposed roads of two to four traffic lanes with a design right-of-way width of 30 to 40 metres. Arterial roads are designed to collect and carry large volumes of traffic at relatively high operating speeds to and from major traffic generating sectors and are so designated as per Policy PW-01 Roadway Classification and Design, as amended. For this type of road to function properly, direct access to abutting

| DATE CREATED: REVIEW DATE: REVISION DATE: COVERAGE: November 2023 County of Renfrew Roads System | | | | PAGE #: 3 of 11 | |

properties must be restricted. Access should normally be provided by a lower classification of road.

Minor Arterial – minor arterial roads are existing and proposed roads of two traffic lanes with a design right-of-way width of 26 to 30 metres. These roads are designed to collect and distribute traffic at relatively high operating speeds to and from local roads, collector, and major arterial roads. Minor arterials are County Roads so designated as per Policy PW-01 Roadway Classification and Design, as amended. Minor arterial roads are designed to tolerate limited direct access to adjacent properties.

Mutual Entrance – provides access to more than one separate property. The entrance is possessed in common and is identified on the title of each property being accessed.

Residential Entrance – provides access to single free standing residential facilities.

Temporary Entrance – provides access to properties for a limited period not to exceed one year for the purpose of construction, repairs, or improvement on that property or to facilitate a staged development.

Public Roads – as defined under the Public Transportation and Highway Improvement Act, R.S.O. 1990, c. P.50.

1.0 ADMINISTRATION

1.1 Application Process

All requests for new entrances or alterations to existing entrances shall be forwarded to the County of Renfrew Public Works and Engineering Department. These will be reviewed for general compliance with these guidelines and may include a site meeting with the applicant to review conditions in the field. Once the application has been reviewed and approved, an entrance permit will be issued upon payment of the fee. For standard residential/farm entrances this process will not, under normal circumstances, exceed eight to ten business days.

| Corporate Policies and Procedures | | | | | | |
|--|--|--|--|---------------------------|--|--|
| DEPARTMENT: Public Works and Engineering | | | | | | |
| POLICY: Entrance Policy a | POLICY: Entrance Policy and Design Guidelines | | | | | |
| DATE CREATED: REVIEW DATE: REVISION DATE: COVERAGE: November 2023 County of Renfrew Roads System | | | | PAGE #: 4 of 11 | | |

For entrances of a commercial, industrial, institutional, or multiple residential nature, the design of the entrances will have to be site specific giving due consideration to the types and number of vehicles using the proposed entrance. The design of such entrances will be prepared by the applicant or their agent and submitted to the County of Renfrew Public Works and Engineering Department. This will be reviewed in detail and if appropriate approved with or without modifications. Because entrances of this type tend to be more complex and involve a greater number of considerations, the length of time to approve the application may be longer.

1.2 Permit Fee

The permit fee will be as set out on the entrance permit. This fee will be subject to review and revision by County Council as they deem appropriate. A fee will not be assessed on applications which are denied.

1.3 <u>Work Permit</u>

Where the proposed entrance and associated development involves extensive works within the public right-of-way, a Work Permit will be required. The decision as to whether a work permit is required shall rest with Director of Public Works and Engineering, or designate.

1.4 Cancellation of Permit

Where the entrance has not been constructed within one year of the date of the permit, the permit shall be null and void.

1.5 Non Compliance with Permit

Where an entrance is constructed or altered contrary to the requirements of the permit or the standards contained herein, it shall be removed by the County of Renfrew Public Works and Engineering Department, at the owner's expense.

| Corporate Policies and Procedures | | | | | | |

| DATE CREATED: REVIEW DATE: REVISION DATE: COVERAGE: | | | | PAGE #: 5 of 11 | | |
| November 2023 | November 2023 County of Renfrew Roads System | | | | | |

1.6 <u>Maintenance of Entrances</u>

Property owners having access to a County Road are fully responsible for the maintenance of the access including the removal of snow and ice, keeping the portion of the access within the right-of-way in a safe condition for vehicular traffic, and replacement as and when necessary.

A culvert pipe installed under the terms of the access permit shall be the property of the property owner upon acceptance of the work and all subsequent maintenance, repairs, alterations, etc., shall be the responsibility of the property owner except where the culvert crosses a municipal drain in which case the maintenance will be the responsibility of the Municipality with costs shared in accordance with the appropriate by-law.

2.0 TYPE, LOCATION, SPACING AND NUMBER OF ENTRANCES

2.1 <u>Type of Entrance</u>

All entrances applied for must be of a type consistent with the zoning of the land being accessed as defined by the local official plan or zoning by-law.

2.2 Location of Accesses

The County may restrict the placement of an access onto the County Road in the interest of public safety. New accesses must be located so as to provide:

- a) no undue interference with the safe movement of public traffic, pedestrians, or other users of the highway.
- b) favourable vision, grade, and alignment conditions for all traffic using the proposed access and the County Road.

New entrances will not be permitted at the following locations:

a) in close proximity to intersections.

| Corporate Policies and Procedures | | | | | | |
|--|---------------------------------------|--|--|---------------------------|--|--|

2.3 Entrance Spacing

An entrance to developments and agricultural fields will be provided to each lot or field. Spacing between new and existing entrances of these types shall generally conform to the following requirements for the classification of roadway being accessed.

| Collector Roads | Urban | Rural |
|--|---------------|-------|
| Farm/Residential | 15 m | 60 m |
| Commercial/Industrial/Institutional/ | 15 m | 60 m |
| Multiple Residential | | |
| Public Roads | 150 m | 300 m |
| Field Entrances | Not Permitted | 150 m |
| Minor Arterials | Urban | Rural |
| Farm/Residential | 15 m | 120 m |

| <u>Major Arterials</u> Farm/Residential | Urban 30 m | Rural Not permitted where access is available from lower classification of roadway. If no other access is available, 180 m in spacing. |
|--|----------------------|--|
| Commercial/Industrial/Institutional/ Multiple Residential | 30 m | 180 m |
| Public Roads | 300 m | 600 m |
| Field | Not Permitted | 300 m |

<u>Notes</u>

- The decision as to whether an area is urban or rural shall be that of the Director of Public Works and Engineering, or designate, in consultation with the Director of Development and Property, or designate.
- 2) Entrances to commercial, industrial, institutional, or multiple residential developments will be assessed on a case by case basis and may be approved at the discretion of the Director of Public Works and Engineering, or designate.
- 3) Entrances to agricultural fields may be spaced closer than indicated at the discretion of the Director of Public Works and Engineering, or designate, if it can be demonstrated that a closer spacing will result in a significant reduction in roadway use by farm vehicles.
- 4) Applications for mutual entrances will be considered on a case by case basis and may be approved at the discretion of the Director of Public Works and Engineering, or designate, subject to the following conditions:
 - a) No other reasonable alternative exists to safely access the County Road and comply with the table of spacing specified above.
 - b) The lots being accessed have frontage on the County Road in general conformance with the above table of entrance spacing.

| Corporate Policies and Procedures | | | | | |

| | | | Roads System | | |

- c) Prior to the issuing of the entrance permit, the mutual entrance must be identified as a single, separate part on a registered plan.
- d) Prior to the issuing of the entrance permit, the applicants will deed to the Corporation of the County of Renfrew a one foot (0.3 m) reserve to restrict access for all lands (other than entrance location) fronting on the County Road.
- 5) Temporary entrances to facilitate construction may be permitted by the Director of Public Works and Engineering, or designate, on a time limited basis not exceeding one year in duration. Temporary entrances for periods longer than one year must be renewed on an annual basis.

2.4 <u>Number of Accesses</u>

Under normal circumstances only one entrance will be permitted to each development or agricultural field. Requests for additional entrances will be assessed on a case by case basis and if justified may be permitted at the discretion of the Director of Public Works and Engineering, or designate.

For Commercial, Institutional, Industrial, and Multiple Residential developments, the number of accesses provided will be the minimum necessary to accommodate the volumes of traffic to be generated by the development.

3.0 DESIGN GUIDELINES

Commercial, Industrial, Institutional, and Multiple Residential: Entrances of this type will be of surface type to meet the requirements of the number and types of vehicles using the entrance. In many instances this may require a minimum of 50 mm of asphalt HL-3 over 150 mm of crushed gravel. Entrances of this type will normally not be less than 7.0 metres nor greater than 9.0 metres in width. All such entrances shall be reviewed on a case by case basis and if appropriate, approved by the Director of Public Works and Engineering, or designate.

Culverts: Culvert pipes shall be the diameter specified and have a length as shown on the entrance permit. Culverts shall be new galvanized metal corrugated pipe culverts with a minimum wall thickness of 1.6 mm or high-density polyethylene (HDPE) at 320 kpa minimum stiffness. The minimum size of an entrance culvert shall be 500 mm diameter. Larger sizes may

| Corporate Policies and Procedures | | | | |
|--|--------------|----------------|--|---------------------------|
| DEPARTMENT: Public Works and Engineering | | | | |
| POLICY: Entrance Policy and Design Guidelines | | | | |
| DATE CREATED: November 2023 | REVIEW DATE: | REVISION DATE: | COVERAGE: County of Renfrew Roads System | PAGE #: 9 of 11 |

be required based on hydraulic considerations. Minimum length of culverts is generally entrance width plus 5 metres. Where the height from the ditch grade to the entrance surface is greater than 1.3 metres, use the following table:

| <u>Height</u> | Culvert Length |
|--------------------------|----------------------|
| 1.3 metres to 1.8 metres | width plus 7 metres |
| 1.8 metres to 2.3 metres | width plus 9 metres |
| 2.3 metres to 2.8 metres | width plus 11 metres |

The culvert shall be centred on the entrance and in the ditchline unless otherwise approved by the Public Works and Engineering Department. The invert of the culvert must be set plus or minus 75 mm below the existing ditch grade.

Curb and Gutter: Where curb and gutter exists at the location of the proposed entrance, the applicant will be required to construct a curb cut at the entrance location. The curb cut will be 5.0 metres wider than the surface width of the entrance specified above. The existing curb shall be removed and replaced using material acceptable to the Director of Public Works and Engineering, or designate, or altered in accordance with the Director of Public Works and Engineering, or designates' requirements. The area between the curb and sidewalk is to be paved with a minimum 50 mm thickness of asphalt HL3 or as directed by the Director of Public Works and Engineering, or designate. If there is no sidewalk, the entrance is to be paved to the edge of the right-of-way.

Curb and/or Headwalls: No curb or headwall shall extend above the surface of the roadway shoulder within a distance of 4 metres from the edge of the travelled roadway. All curbs and headwalls are constructed at the sole expense and risk of the applicant.

Entrance Configuration: Shall generally conform to the configurations shown on the attached sketches for the type and location of entrance to be constructed.

Entrance Grade: In rural areas the finished surface of the access must drop away from the edge of the highway driving surface at a slope of not less than 4% nor more than 6% for a distance of not less than 2 metres beyond the edge of the roadway shoulder in rural areas. In urban areas

the slope of the entrance shall rise at not less than 2% nor more than 4% for a distance of 4 metres beyond the curb line.

Farm or Residential Entrance: Shall be surfaced with at least 150 mm (6") crushed gravel (Granular "A"). At the property owner's option a 50 mm thickness of asphalt HL3 may be placed on that portion of the entrance within the right-of-way. Entrances of this type will normally have a minimum entrance width of 4.5 metres. Entrances wider than 7.0 metres will not normally be permitted.

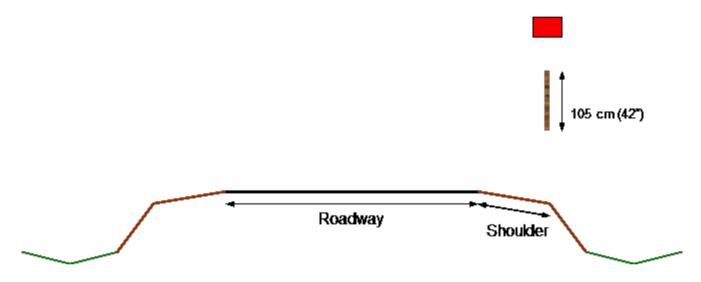

Field Entrance: Shall be surfaced with at least 150 mm (6") crushed gravel (Granular "A"). Entrances will normally have a minimum entrance width of 4.5 metres. Entrances wider than 7.0 metres will not normally be permitted.

Public Roads: Shall conform to the development standards of the municipality in which the development is situated.

Surface Type and Width: Shall be as specified below for each type of entrance. Deviations from the following guidelines will be assessed on a case by case basis and may be approved by the Director of Public Works and Engineering, or designate. The use of concrete or paving stones within the right-of-way is prohibited.

Typical Rural Mailbox Installation Guidelines:

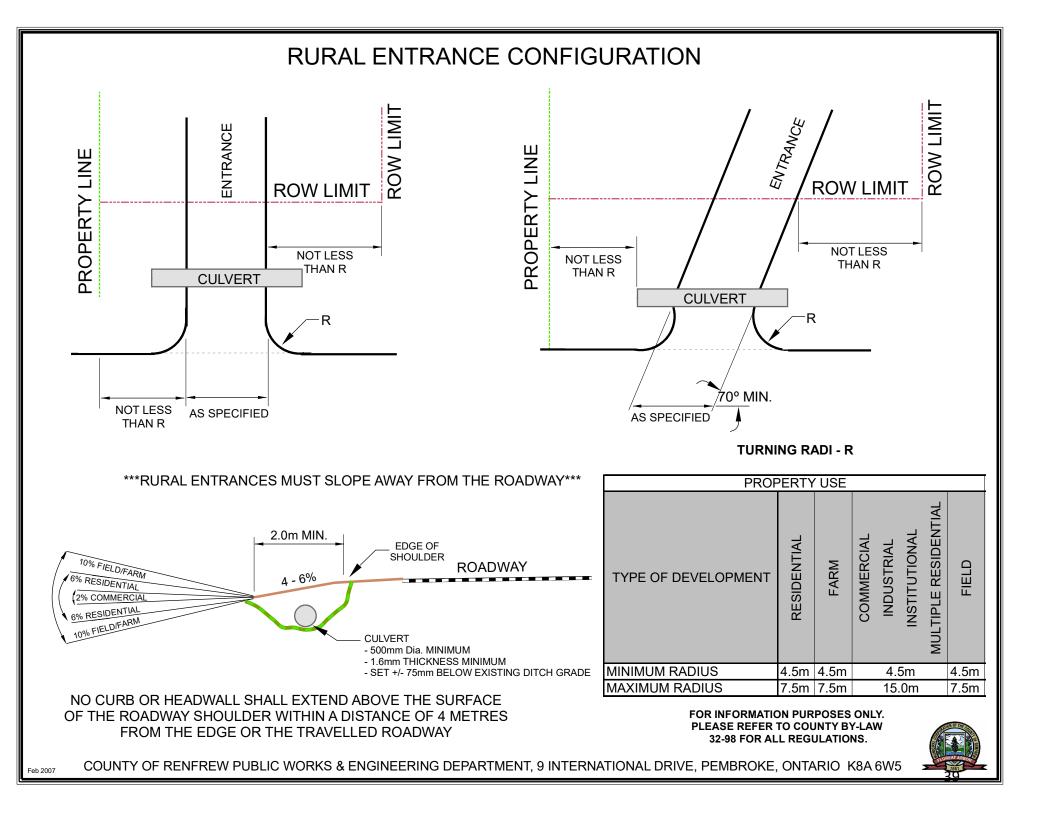

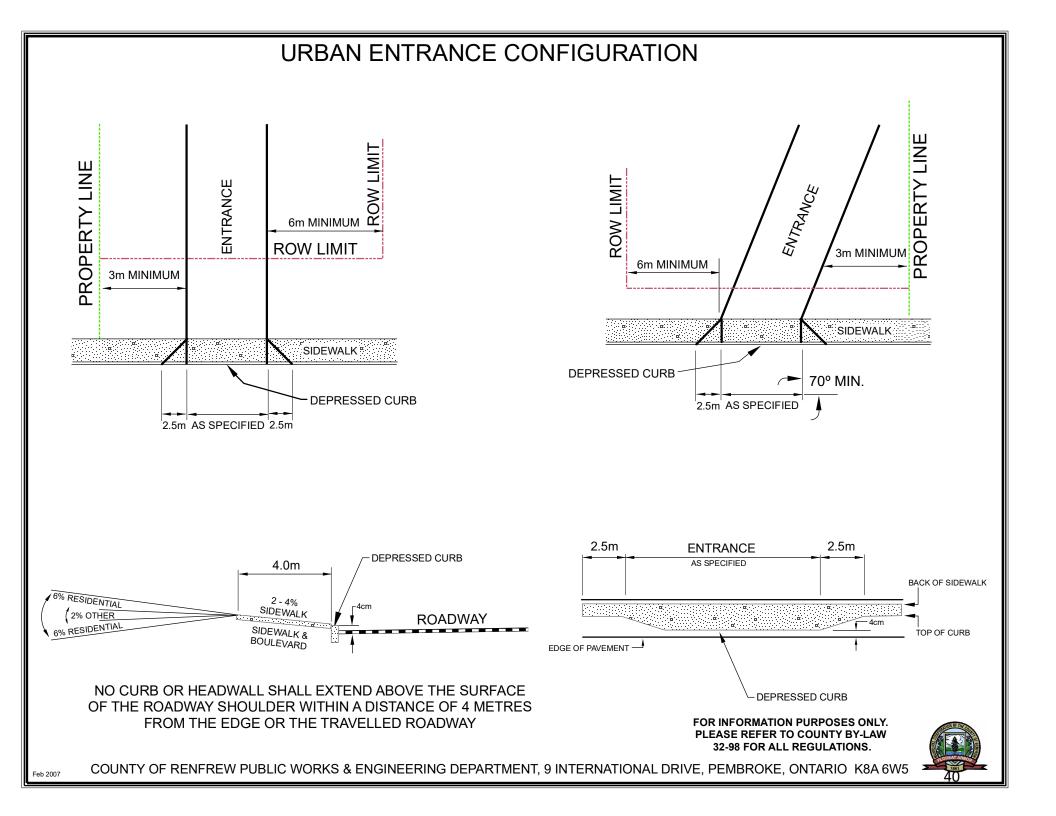

A Rural Mailbox should be located along the right hand side of the road in the direction, which the contractor travels and delivers along the route, in a position where the contractor can reach and safely deliver the mail through the passenger window without getting out of the vehicle or being an impediment to other traffic. Your local postal official will be able to identify the exact location for your Rural Mailbox.

The post should be at the rounding of the shoulder area so that the opening of the mailbox is at the outside edge of the shoulder. Mailboxes on cantilevered arms should be installed so that the mailboxes cannot be moved closer to the road than the rounding of the shoulder.

The box must be securely attached to a fixed post or arm on a lever. The bottom of the box should be 105 cm (42 inches) above the roadway and should not obscure or obstruct access to any other boxes near it.

CAPITAL WORKS DIVISION REPORT

Prepared By: Taylor Hanrath, Manager of Capital Works Prepared for: Operations Committee November 14, 2023

INFORMATION

1. 2023 Capital Works Division Recap

Another successful construction season is coming to a close and it has been particularly eventful year for all aspects of the Public Works and Engineering Department. Slides are being presented to Committee to provide visuals and greater detail. Below is a general, nowhere near all-encompassing, summary of the Division's accomplishments through 2023:

a) Administrative

In February 2023, as part of Resolution No. DP-CC-23-02-20, the following was approved by County Council at the Budget Workshop:

"THAT the Development and Property Committee approves the proposed restructuring to the Development and Property Department as follows:

6. The Trails Division will report to the Public Works and Engineering Department."

With this change, the Capital Works Division assumed responsibility for the County's Recreational Trails – the Algonquin Trail and the K & P Recreational Trail and was joined by Trails Coordinator, Anthony Hobbs, who had previously reported to the Development and Property Department as Forestry and Trails Technician.

In addition, County Council approved Resolution OP-CC-23-02-15, with the changes to start being implemented during the third quarter of 2023, as follows:

"THAT the Operations Committee approves the proposed restructuring of the Public Works and Engineering Department as presented in the attached Business Case:

- Restructuring of the Public Works and Engineering Department;
- Renaming of the Infrastructure Division to the Capital Works Division;
- Enactment of three new positions a Civil Designer in Group 6 of the Staff Salary Grid (1,820 hours), a third Engineering Technician in Group 6 of the Staff Salary Grid (1,820 hours), and an Operations Coordinator in Group 7 of the Staff Salary Grid (1,820 hours); and,

• Establishment of the current part-time Administrative Assistant II position as a full-time position in Group 3 of the Staff Salary Grid (910 hours)."

The Public Works and Engineering Department is now joined by three new positions – a Civil Designer, a third Engineering Technician, and an Operations Coordinator. Once these positions were filled, it also allowed for reorganizing of the Department with all Capital Works now falling under the former Infrastructure Division and all Maintenance and Operation Works remaining under the Operations Division. The current Organizational Chart for the Department is included as Appendix CW-I.

b) Corridor Control and Infrastructure Management

The Infrastructure Technician, Nathan Kuiack, coordinated the implementation of a new permitting system developed by Transnomis, known as Permit Central, which was enacted in May, 2023. Using this new system, and traditional means prior to the system's implementation, the Infrastructure Technician processed more than 300 different permit applications including: more than 30 municipal consents, more than 100 special vehicle permits, and more than 40 road occupancy permits. The Infrastructure Technician also provided input on a number of site plan applications and subdivision plans to ensure that proposed works took County infrastructure into consideration or incorporated new infrastructure on County Roads where required. Additionally, Nathan updated traffic counts on a fifth of the County's road system, undertook speed studies, intersection studies, developed a new billboard policy for County Roads, and processed more than 650 locate requests.

The Infrastructure Coordinator, Jason Porteous, has coordinated a Consultant's progression of the development of the County's own Transportation Master Plan (TMP) which is anticipated for completion at the end of 2024. The inspection of 615.4km of road was completed in 2023 by the Infrastructure Coordinator. The inspection of 126 County structures, 46 trail structures, and six local township structures by a Consultant, in compliance with the requirements of the Ontario Structure Inspection Manual, has been coordinated by the Infrastructure Coordinator. Additionally, a detailed condition survey and rehabilitation study is being completed on three bridges which has been coordinated and overseen by Jason. All of the above, and past inspection data, was incorporated and utilized in updating the Asset Management Plan for the County's linear infrastructure.

c) Roads

Under the supervision of the Manager of Operations until October 2023, the Supervisor of Technical Services, Michael Behm, oversaw the rehabilitation of 31.2km of roadway with design and construction supervision completed by the three Engineering Technicians: Lucas Andre, Steven Hynes, and Bryton Weckworth (now Operations Coordinator). Under the supervision of the Manager of Capital Works, the Capital Projects Coordinator, Brett Kidd, and the Civil Designer, Justin Schauer, coordinated the reconstruction of 9.13km of road with Consultant Services.

In total, more than 42.7km of County Roads are to have capital construction completed in 2023 at a projected cost of \$23,854,022.

d) Structures

The Capital Projects Coordinator oversaw the rehabilitation of three County bridges, with design and supervision undertaken by Consultants. The Capital Projects Coordinator oversaw the rehabilitation or replacement of four culvert structures, with design and supervision undertaken by Consultants. An additional three culvert structures were replaced, with the design completed by the Civil Designer.

The Day Labour Construction group, overseen by Construction Supervisor, Daryl Cybulski, undertook the replacement or rehabilitation of six of the above noted culvert structures.

In total, construction was completed on 10 County structures in 2023 with a total projected cost of \$6,059,000.

Design commenced, or will continue, on 8 bridges and 13 culvert structures, with 3 being undertaken by the Civil Designer.

e) Trails

The Algonquin Trail is 220km, with 116km currently open for public use, and the 22.2km of K & P Recreational Trail are open for public use. In 2023, the Trails Coordinator, Anthony Hobbs, with great assistance from the Operations staff, undertook, oversaw, and coordinated a number of maintenance initiatives on the open sections of trail including but not limited to structure repairs, surface repairs, ditching, mowing, noxious weed spraying, application of dust suppression, installation of farm fencing, and enforcement. The 2023 total projected maintenance costs are \$143,370 for the Algonquin Trail and \$22,650 for the K & P Recreational Trail.

A number of Capital Project initiatives have also been coordinated, overseen, or completed by the Trails Coordinator including, but not limited to the following:

- Rehabilitation of 10km of open trail;
- Realignment of trail intersection with Pembroke Street West (in cooperation with the City of Pembroke);
- Construction of 12.3km of new Algonquin Trail up to and on TC Energy corridor, through Garrison Petawawa lands – leading to 2km of additional trail being opened;
- Rehabilitation of three bridges two by Consultants and Contractors, one by internal staff for design and construction; and

• Design completion by Consultants for five bridges (two noted above, and three planned for 2024 construction).

The Trails Coordinator also worked with local partners, the Renfrew County ATV Club and the Ontario Federation of Snowmobile Clubs, to attain additional funding support towards some of the above capital works. In total, the capital works above are to be approximately \$1,500,000.

In all, 2023 marked a busy year for the Capital Works Division. The team continued to rise to the occasion, representing the County with professionalism, honesty and integrity, client service orientation, and a focus on results.

RESOLUTIONS

2. Haley Station – All-Way Stop Warrant – County Road 61 (Haley Road) at Godfrey Road

Recommendation: THAT the Operations Committee recommends to County Council that the Township of Whitewater Region be notified that the intersection of County Road 61 (Haley Road and Godfrey Road) with Haley Road and Fire Hall Lane does not meet the warrants for an all-way stop.

Background

Attached as Appendix CW-II is a resolution that was received from the Township of Whitewater Region dated September 20, 2023, requesting that the County of Renfrew investigate the need for an all-way stop at the intersection of Haley Road with Godfrey Road and Fire Hall Lane.

On October 18, 2023, staff completed a turning movement intersection count at the noted location. The results of the count have been inputted into the "All-Way Stop Sign Control Warrant Worksheet" as used in the Ontario Traffic Manual Book 5, for determining if an all-way stop is warranted at this location.

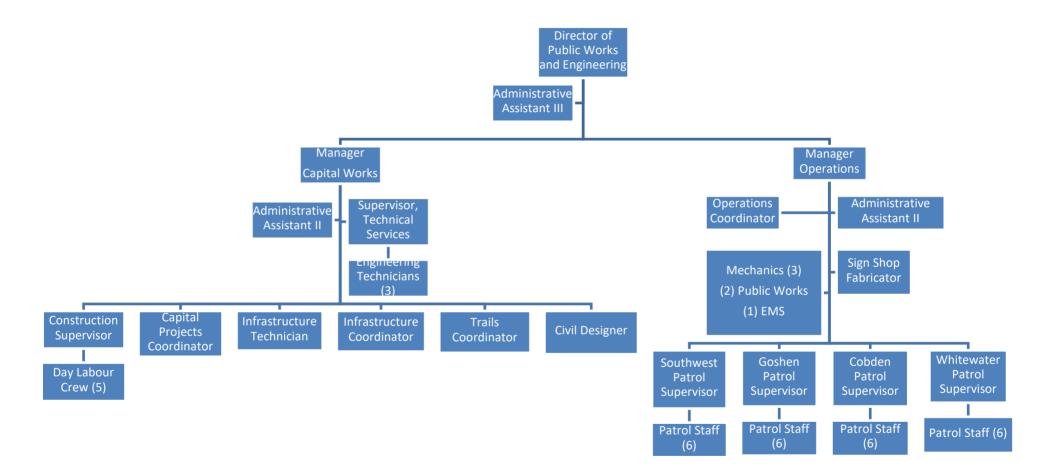

As Haley Road has been identified as a Collector Roadway, the requirement for an allway stop is determined by two factors, being:

- i) The total vehicle volume for the intersection must exceed 250 vehicles for the average of four peak hours of the day; and,
- ii) The volume split does not exceed an average of 70/30 based on those same counts.

The results of the four peak hours of the count indicate total intersection volumes of 158, 78, 67, and 150 vehicles and pedestrians combined. In order for an all-way stop to be warranted, all four of these peak hours would require volumes in excess of 250 vehicles and pedestrians combined.

The warrant spreadsheet and a map showing the location of the intersection has been included as Appendix CW-III.

Re: Resolution - Haley/Godfrey Road Concern - Taylor Gannon

Dear Mr. Perkins,

At its meeting of September 20, 2023, the Council of the Township of Whitewater Region adopted the following resolution:

That Council of the Township of Whitewater Region recommend that County investigate an all way stop at the County Road 61 from Godfrey and Haley Road and investigate with County a lower transition limit in the hamlet on approach.

Carried as amended - Resolution #2023-4957

OPERATIONS DIVISION REPORT

Prepared by: Richard Bolduc, A.Sc.T., Manager of Operations Prepared for: Operations Committee November 14, 2023

INFORMATION

1. **Operational Status and Winter Readiness**

Staff are prepared for the upcoming winter season, and as per the Winter Maintenance Operations Guidelines, the Department reached 100% fleet readiness on October 31, 2023.

2. Winter Maintenance Agreements

The following are the updated statuses of the most recent maintenance agreements:

- Pat Stewart Trucking Inc. for services on County Road 635 (Swisha Road) Term 2023-2024 – Completed.
- Town of Arnprior Term 2023-2024 Completed.

BY-LAWS

3. PWO-2023-10 – Wheeled Excavator and Attachments

Recommendation: THAT the Operations Committee recommends that County Council approve the bid submitted by Toromont CAT, Ottawa, Ontario, for the acquisition of one wheeled excavator and required attachments, in the amount of \$533,424, plus applicable taxes; AND FURTHER THAT County Council adopt a By-law to Authorize Execution of the Contract.

Background

Submissions were requested and received from two suppliers through the Canoe Procurement Program as follows:

- 1. Toromont CAT, Ottawa, Ontario
- Brandt Tractor Ltd., Regina, Saskatchewan Amount excludes applicable taxes.

\$606,287 Rejected

Financial Implications

The combined approved budget for the wheeled excavator and all attachments is \$550,000. The total bid received from Toromont CAT is \$606,287, plus applicable taxes. To remain within the approved budget, staff are proposing to acquire the excavator and the immediate required attachments, which are the ditching bucket and the forestry head, in the amount of \$533,424, plus applicable taxes.

COUNTY OF RENFREW

BY-LAW NUMBER

A BY-LAW FOR THE EXECUTION OF CONTRACT PWO-2023-10 SUPPLY AND DELIVERY OF ONE WHEELED EXCAVATOR AND ATTACHMENTS

WHEREAS The Municipal Act, 2001, S.O. 2001, c.25, as amended, requires a municipality to adopt policies with respect to the procurement of goods and services;

AND WHEREAS public tenders were requested for the supply and delivery of one wheeled excavator and attachments, under Contract PWO-2023-10 in accordance with County of Renfrew Corporate Policy GA-01 Procurement of Goods and Services;

AND WHEREAS the tender submitted by Toromont CAT, Ottawa, Ontario, was reviewed and accepted by the Operations Committee.

NOW THEREFORE the Council of the Corporation of the County of Renfrew hereby enacts:

- 1. THAT the Council of the County of Renfrew approve the awarding of Contract PWO-2023-10 for the supply and delivery of one wheeled excavator and attachments as submitted by Toromont CAT, Ottawa, Ontario, in the amount of \$533,424 plus applicable taxes.
- 2. THAT the Warden and Clerk be empowered to do and execute all things, papers and documents necessary for the execution of the said contract.
- 3. THAT this By-law shall come into force and take effect upon the passing thereof.

READ a first time this 29th day of November 2023.

READ a second time this 29th day of November 2023.

READ a third time and finally passed this 29th day of November 2023.
